

Stream No. 115-32-10300-2002-3019-4008 Tributary Nomination

I surveyed this stream on 11-15-10. I placed minnow traps at points 8 and 10 (Figure 1.). Area Management Biologist Rich Chapell also surveyed the stream on 11/4/10. He located adult coho salmon at point 9. My trap data is outlined on Table 1. Spawning coho were observed displaying redd building behavior. No barriers between point 8 and 10.
