

## 108-60-10046 ROUTE CORRECTION

## CORRECTION

**Water body name:**

**Survey date:** 7/12/2013

**Water body number:** 108-60-10046

**Species & Lifestage:** COp

**Watershed:** Big Creek-Frontal Frederick Sound

**MTR:** C058S080E **Quad:** Petersburg D-3

**Findings:** We surveyed stream 108-60-10046 to update the current course in Anadromous Waters Catalog (Table 1). We walked downstream from Frederick Sound Drive and found a 25-30' waterfall (Figure 1). The length of the stream in the catalog needs to be shortened because of the 25-30' waterfall. We ended the survey in the intertidal zone where we found a dead squid (Figure 2).

**Recommendations:** Correct current route in AWC and shorten due to waterfall barrier.

Table 1.–108-60-10046 survey data.

Waypoint	Latitude	Longitude	Notes	Sample Effort	Sample Results
20	56.7951	-132.8640	Intertidal zone with creek and ocean.		
19	56.7948	-132.8638	Downstream of waterfall.		
18	56.7947	-132.8639	Top of 25-30 ft. waterfall. Definite barrier.
