JUSTIFICATION

The Alaska Board of Fisheries authorized the department to use its emergency order authority to increase sport bag and possession limits and annual limits for hatchery king salmon in terminal harvest areas when escapement is expected to be in excess of the broodstock requirements. The Southeast King Salmon Management Plan authorizes the department to repeal the nonresident annual limit in hatchery terminal harvest areas. Hatchery king salmon are expected to return to the salt and fresh waters near Juneau, and over 500 of these fish are expected at Fish Creek on Douglas Island. Therefore, the department is increasing the king salmon bag and possession limits and repealing the nonresident annual limit in the salt and fresh waters of the Juneau area. In addition, the department is liberalizing methods and means in Fish Creek Pond.
