**RECREATIONAL FISH STOCKING PLAN  
AVAILABLE FOR COMMENT**

The Alaska Department of Fish and Game Division of Sport Fish is now accepting public comment on its statewide fish stocking plan.

The Division, with assistance from private non-profit hatchery operators, plans to release approximately 7 million fish into the waters of Alaska every year for the next five years to benefit recreational anglers. The stocking plan outlines the location, number, and size or life stage for each species of fish we plan to stock.

Only fish from Division of Sport Fish hatchery facilities and from private non-profit hatcheries, who in cooperation with the department, produce fish to improve recreational fisheries, are included in this plan.

The plan is posted on the department's website at: <http://www.adfg.alaska.gov/index.cfm?adfg=fishingSportStockingHatcheries.stockingPlan> under "Hatcheries and Stocking". Copies of the plan are also available for review at Division of Sport Fish management area offices.

Comments may be emailed to Andrew Garry at: [andrew.garry@alaska.gov](mailto:andrew.garry@alaska.gov) or contact him at:
