

Juneau Hatchery Terminal Harvest Area (THA)

The Juneau Terminal Harvest Area is defined as the contiguous marine waters of the Auke Bay area, Fritz Cove, and Gastineau Channel that are bound on the west side by a line that extends from Point Louisa to the navigational aid at the northern tip of Portland Island, along the eastern shore of Portland Island to its southern most tip and then to the tip of Outer Point on Douglas Island. The eastern boundary of the THA is a line, indicated by department markers on the east and west shores of Gastineau Channel, extending across Gastineau Channel approximately 1/4 mile south of the Dupont Dock.
