Get out and Fish. Together.

www.wefishak.alaska.gov
The Alaska Department of Fish and Game, Division of Sport Fish stocks a variety of fish species into lakes and streams throughout Alaska. Rainbow trout, Arctic char, and landlocked Chinook and coho salmon, raised in the state’s two fish hatcheries, are stocked in many southcentral and interior lakes. Since the early 1960s, ADF&G has been stocking lakes in the Kenai Peninsula area. Today, lakes are stocked to increase sport fishing opportunities, and to improve existing fisheries. Most of the lakes are small, and have no natural spawning areas. Since fish in these lakes cannot reproduce, the lakes in the Kenai Peninsula area are stocked either annually or during alternating years from early to late summer.

For current stocking records, please visit the “Hatcheries and Stocking” webpage under the “Sport Fishing” tab on the Alaska Department of Fish and Game’s webpage www.adfg.alaska.gov.
Landlocked Salmon

**Lures, Attractors, Plugs, Bait**

Vibrax spinners, sizes 2-5; Mepps spinners, sizes 2-5; Pixee spoons, 1/4 - 1/2 oz.; Krocodile spoons, sizes 5/8 - 1/2 oz.; Coyote spoons.

Also, single hook, or two single hooks, or a treble hook (depending on regs), with one or more of the following: Buzz Bombs, Spin-N-Glos; Lil’ Corkys; “yarn flies” (a piece of Glo-Bug yarn in just about any color); or salmon egg clusters, fresh or preserved.

**Flies**

Sizes 6 - 2 coho streamers; Egg sucking Leeches; Flash Flies; Polar Shrimps; shrimp patterns; patterns with metallic tinsel; for top-water action in chartreuse or hot pink; “yarn flies”; just about any saltwater fly.

Rainbow Trout, Arctic Char, Grayling

**Lures, attractors, plugs, bait**

Mepps spinners, sizes 0 - 4; Vibrax spinners, sizes 0 - 4, Pixee spoons, 1/4 oz.; Krocodile spoons, 1/4 oz.; Rapala plugs, 1 - 3-inch; FlatFish, 1 1/2 - 1 3/4 inch.

Also size 32 - 4 single hook or treble hook (depending on regs) with one or more of the following: small Spin-N-Glos; small Lil’ Corky; a plastic or glue gun bead in pink, red, orange or white; salmon egg clusters or single salmon eggs, cured or fresh, as well as fresh cocktail shrimp, canned clams, PowerBait, worms (all depending on bait regs). No live fish may be used as bait in fresh waters. 2- to 15-lb. test leader and line.

**Flies**

Size 32 - 2 flies in just about any pattern; most popular are Prince Nymphs and other bead heads; caddis imitations; stonfly imitations; chironomid imitations; salmon egg, alevin, fry or flesh patterns; Mosquitoes; Adams Parachutes; Egg-sucking Leeches; Scuds; Muddler Minnows. 0- to 8-wt. fly rod.

Northern Pike (invasive)

**Lures, attractors, bait**

Buzzbaits or spinnerbaits, 1/2 - 3/8; plastic baits imitating juvenile pike, salmon, or worms; Hot Shots or Wiggle Warts; Coyote spoons; Rapala top water baits. Weedless hooks are recommended, since pike prefer aquatic vegetation.

Also, a size 6 - 1/0 single hook or treble hook with one or more of the following: Lil’ Corky; Spin-N-Glos; Buzz Bombs; Polly Wogs; whole or chunks of herring; whole or chunks of eulachon (smelt / hooligan). No live fish may be used as bait in fresh waters. 5- to 15-lb. test steel leader, line.

**Flies**

Size 6 - 2/0 mouse, shrew, frog or duckling patterns; Muddler Minnows; Dahlberg Divers; Wooly worms or buggers; sculpin patterns; Pike Bunnys; foam poppers; minnow or smolt patterns; Deceivers. 4- to 9-wt. fly rod.

Other Gear

There may be areas where it is legal to use a spear to target pike, and other areas where is it open to bowfishing for pike. Steel leaders are highly recommended, since they ensure that the pike’s sharp teeth won’t break the line. Pike also have teeth on their gills, so a hook removal tool would also be helpful.

* In addition to your fishing gear, don’t forget to take a life jacket / PFD, sunblock, bug repellent, first aid kit, and regulation booklet.

* Remember, there may be areas where cell phones do not work, so be sure to let someone know where you are going and when you are expected to return.
Kenai Peninsula Stocked Lakes

Species Identification

**Arctic Char**
- Large spots along both sides of the body.
- Coloration can range from pink to orange bellies, dark brown to lighter brown backs, and creamy to orange spots.
- Paired fins are orange to red with a bright white leading edge.

**Chinook Salmon**
- Black spots along back and on both lobes of the tail.
- Coloration is primarily silver and dark grey.
- Dark mouth and black gums.

**Rainbow Trout**
- Black spots along the body and tail.
- Vague pink to prominent red colored band extending from the cheek to the base of the caudal fin (tail).
- White mouth.

**Arctic Grayling**
- Large dorsal fin.
- The sides of the body and head can be freckled with black spots.
- Small mouth.
- Silver or greyish body with gold or blue tones.
Non-Native and Invasive Species

Blackfish are not native to Southcentral

**Blackfish**
- Blotchy dark green to brown color
- Paddle-like tail
- Pale cream colored belly with blotchy areas on sides
- Lower jaw longer than upper
- Small, seldom longer than 8”

Northern pike are an invasive species in Southcentral Alaska— if you catch one, do not release it back to the water alive.

**Northern Pike**
- Elongated body and head
- Flat snout similar to a duck’s bill
- Light to olive green with white oval spots along body
- Sharp teeth on the jaws, roof of mouth, tongue, and gillrakers
Arc Lake

State of Alaska
Department of Fish and Game
Division of Sport Fish
43961 Kalifonsky Beach Rd, Suite B
