OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Pink	8-27-11	Yes		Yes	<input checked="" type="checkbox"/>
Pink	8-15-12	Yes		Yes	<input checked="" type="checkbox"/>
Pink	8-21-13	Yes		Yes	<input checked="" type="checkbox"/>
<u>Chum salmon</u>	<u>8/28/13</u>	<u>X</u>			<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments This stream has been a pink salmon index stream for many years. Also has chum salmon. See attached records.

Add new stream w/ pink & chum salmon spawning

Subject: RE: AWC nominations

J,

I will send you two for now. These are based on a conservative estimate since they have not been surveyed on the ground in any detail. If we happen to get more detailed information at some point I will send you that information.

Seven Fathom – 56 47.68 N / 135 17.60 W – this point is approximately high intertidal and is as far as I have seen pinks spawning but suspect more of the stream is utilized. I just haven't looked.

Hoggatt Bay – 56 59.68 N/ 134 41.80 W – here I assuming at a minimum the inlet end of the lake as this is sockeye and must be at least utilizing the lake itself.

I will have Coogan and Sukoi after I have a chance to talk to my stream walkers and get their best indication since they have surveyed these on multiple occasions.

Thanks
Dave

Dave

Attached are maps for each of the nomination forms you sent
To map each water body w/fish species, I need to know how far upstream each species was observed.
Either mark up the attached and scan or mail back to me
Or if ya can describe upper most observation pt (lat/long coordinates) or other means, that will work too.

Subject: AWC nominations

Good morning,

Here is the paperwork to nominate are four streams that were not listed as far as we could tell. Surprising that Camp Coogan and Sukoi Inlet SE Head, both long term pink index streams were not on the list. Any questions let us know.

Subject: Last two streams

My stream walker Eric Parker give me his best estimate on these.

Sukoi: 57 16.24' 135 39.48'
Coogan: 56 59.69' 135 12.07'

add new stream 113-62-10057
w/chum & pink salmon spawning, use
arc2015 for hydro
