FISH RESOURCE PERMIT
(For Scientific/Educational Purposes)

This permit Lance Lerum (whose signature is required on page 2 for permit validation)
person

of USDA Forest Service-Admiralty Island NM at 8461 Old Dairy Road, Juneau, AK 99801
agency or organization address

to conduct the following activities from May 1, 2008 to October 1, 2008 in accordance with AS 16.05.930:

Purpose: To investigate the potentially negative effect the partial barrier in the outlet stream has on low sockeye escapement numbers and the recovery of a formerly strong run.

Location: Admiralty Island: Lower Kanalku Creek near the partial barrier falls.

Species Collected: sockeye salmon

Method of Capture: Dip/cast net, beach seine, net weir

Final Disposition: ≤20-30 fish will be collected, have their adipose fin clipped, be tagged (with spaghetti or dart tags) and released at 3-4 different times during the run. Each tagging event will be approximately 7 days apart. The total number of sockeye tagged will be ≤90.

REPORT DUE December 1, 2008. The report shall include species, numbers, dates, and locations of collection (datum/GPS coordinates in the decimal degrees format (dd.ddddd)) and disposition, and if applicable, sex, age, and breeding condition, and lengths and weights of fish. *It must also include the date/time the local biologist was contacted for final authorization to carry out collecting activities. A completion report (abstract, background, methods, data analysis), if not submitted with the collection report described above, must be submitted to the department by: Month/year.* Data from such reports are considered public information. The report shall also include other information as may be required under the permit stipulations section.

GENERAL CONDITIONS, EXCEPTIONS AND RESTRICTIONS

1. This permit must be carried by person(s) specified during approved activities who shall show it on request to persons authorized to enforce Alaska's fish and game laws. This permit is nontransferable and will be revoked or renewal denied by the Commissioner of Fish and Game if the permittee violates any of its conditions, exceptions or restrictions. No redelegation of authority may be allowed under this permit unless specifically noted.
2. No specimens taken under authority hereof may be sold or bartered. All specimens must be deposited in a public museum or a public scientific or educational institution unless otherwise stated herein. Subpermittees shall not retain possession of live animals or other specimens.
3. The permittee shall keep records of all activities conducted under authority of this permit, available for inspection at all reasonable hours upon request of any authorized state enforcement officer.
4. Permits will not be renewed until the department has received detailed reports, as specified above.
5. UNLESS SPECIFICALLY STATED HEREIN, THIS PERMIT DOES NOT AUTHORIZE the exportation of specimens or the taking of specimens in areas otherwise closed to hunting and fishing; without appropriate licenses required by state regulations; during closed seasons; or in any manner, by any means, at any time not permitted by those regulations.

Authorized Personnel: The following persons may perform collecting activities under terms of this permit:

Dave Beatly, Chad Hood, Lance Lerum, Robbie Piehl, Pete Schneider, Ben Van Alen

Employees and volunteers under the direct supervision of, and in the presence of, one of the authorized personnel listed above may participate in collecting activities under terms of this permit.

Permit Stipulations:

- 1) The local Area Management Biologist, **Brian Glynn** (465-4318; brian.glynn@alaska.gov) Juneau, **must be notified prior to you engaging in any collecting activities**. This biologist has the right to specify methods for collecting, as well as limiting the collections of any species by number, time and location.
- 2) You must contact ADF&G biologist Jan Conitz (465-1191) to discuss this project with her.
- 3) Tagging activities are prohibited when subsistence fishing will soon occur and when it is occurring.
- 4) Please include in your Completion Report pictures of the tagging location including the net weir in operation.
- 5) Any fish that has the potential to be captured by anglers and **consumed** within 21 days after being anesthetized must be anesthetized by use of a Food and Drug Administration (FDA) approved anesthetic other than MS-222.
- 6) Each piece of unattended sampling gear must be: 1) labeled with the permittee's name, telephone number, and permit number, 2) securely tied to substrate, 3) located with GPS coordinates, and 4) accounted for/ removed at the conclusion of sampling.
- 7) If anadromous fish are found in permitted streams and rivers, the permit holder will work closely with ADF&G to see that information is included in the database for the *Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes*. Anadromous fish include *Oncorhynchus spp.*, Arctic char, Dolly Varden, sheefish, smelts, lamprey, whitefish, and sturgeon. Please direct questions to J. Johnson, 267-2337 or j.johnson@alaska.gov
- 8) **Atlantic salmon** and other **non-native invasive aquatic species** encountered should be killed. Contact the nearest ADF&G office (**see Stipulation # 1**) immediately with species identification or description, capture or sighting location, number captured, size, and sex. Preserve and turn in the whole specimen to the nearest ADF&G office.
- 9) A Title 41 Permit may be required from the Alaska Department of Natural Resources, Office of Habitat Management and Permitting, to place structures (weir, etc.) in streams.
- 10) A copy of this permit, including any amendments, must be made available at all field collection sites and project sites for inspection upon request by a representative of the department or a law enforcement officer.
- 11) Issuance of this permit does not absolve the permittee from compliance in full with any and all other applicable federal, state, or local laws, regulations, or ordinances.
- 12) A **report of collecting activities**, referenced to this fish resource permit number, must be submitted to the Alaska Department of Fish and Game, Division of Sport Fish HQ, P.O. Box 115525, Juneau, AK 99811-5525, Attention: Bob Piorkowski (465-6109; Robert.Piorkowski@alaska.gov), within 30 days after the expiration of this permit. This report must summarize the number of fish captured by date, by location (provide GPS coordinates and datum), and by species, and the fate of those fish. Fish length, weight, sex, and age data should be included if collected. A completion report (abstract/background/methods /data/analysis), if not submitted with the collection report described above, must be submitted to the department within six months of the expiration of the permit. Data from such reports are considered public information. A report is required whether or not collecting activities were undertaken. A report should also be sent to the Biologist(s) listed under **Stipulation #1**.

PERMIT VALIDATION requires permittee's signature agreeing to abide by permit conditions before beginning collecting activities:
