FISH RESOURCE PERMIT AMENDMENT #2

Permit No. SF2008-163

Permit Issued To: **Betsy McGregor** (signature required below for permit validation)

This amendment of Fish Resource Permit SF2008-163:

1) under Final Disposition: adds the following:

≤12 Dolly Varden (adults) may be collected from each of three river basins (North Fork Koktuli, South Fork Koktuli, Upper Tularik) and have their otoliths removed for micro-chemical analysis. Carcasses may either be returned to the waters where captured or disposed of as biological waste.

All other conditions specified in Fish Resource Permit SF2008-163 remain in effect.

This amendment must be attached to the original permit.

Division of Sport Fish

Date
