

STATE OF ALASKA
DEPARTMENT OF FISH AND GAME
P.O. BOX 115525
JUNEAU, ALASKA 99811-5525

Permit #: SF2009-052

Expires: 10/30/2009

Collections Report/Samples Due: 11/30/2009

FISH RESOURCE PERMIT
(For Scientific/Educational Purposes)

This permit authorizes Benjamin Mann (whose signature is required on page 2 for permit validation)

of the Sitka Tribe of Alaska at 456 Katlian Street, Sitka, Alaska 99835
agency or organization *person* *address*

to conduct the following activities from June 1, 2009 to October 30, 2009 in accordance with AS 16.05.930:

Purpose: To monitor sockeye salmon populations in the Klag Bay Stream system.

Location: Klag Bay Stream--Chichagof Island.

Species Collected: Chum/coho/pink/sockeye salmon, steelhead trout, Dolly Varden.

Method of Capture: Weir with trap.

Department Sample Requirements: The Department requests samples suitable for genetic analysis from 200 sockeye salmon handled under this permit (**See Stipulation #5 for sampling details**).

Final Disposition: ≤20% (one out of five) of the sockeye salmon that move through the weir may be collected, measured, scale sampled, marked with a fin clip before live release at capture site. Any number of individuals of other species of fish may be collected, counted and released alive at the capture site.

-Continued on Back-

REPORT DUE November 30, 2009. The report, using a template furnished by ADF&G, shall include species, numbers, dates, and locations of collection (datum/GPS coordinates in the decimal degrees format (dd.ddddd)) and disposition, and if applicable, sex, age, and breeding condition, and lengths and weights of fish. *It must also include the date/time the local biologist was contacted for final authorization to carry out collecting activities.* A completion report (abstract, background, methods, data, analysis), if not submitted with the collection report described above, must be submitted to the department by: April/2010. Data from such reports are considered public information. The report shall also include other information as may be required under the permit stipulations section.

GENERAL CONDITIONS, EXCEPTIONS AND RESTRICTIONS

1. This permit must be carried by person(s) specified during approved activities who shall show it on request to persons authorized to enforce Alaska's fish and game laws. This permit is nontransferable and will be revoked or renewal denied by the Commissioner of Fish and Game if the permittee violates any of its conditions, exceptions or restrictions. No redelegation of authority may be allowed under this permit unless specifically noted.
2. No specimens taken under authority hereof may be sold or bartered. All specimens must be deposited in a public museum or a public scientific or educational institution unless otherwise stated herein. Subpermittees shall not retain possession of live animals or other specimens.
3. The permittee shall keep records of all activities conducted under authority of this permit, available for inspection at all reasonable hours upon request of any authorized state enforcement officer.
4. Permits will not be renewed until the department has received detailed reports, as specified above.
5. UNLESS SPECIFICALLY STATED HEREIN, THIS PERMIT DOES NOT AUTHORIZE the exportation of specimens or the taking of specimens in areas otherwise closed to hunting and fishing; without appropriate licenses required by state regulations; during closed seasons; or in any manner, by any means, at any time not permitted by those regulations.

Date

SF2009-052 continued (page 2 of 2)

Authorized Personnel: The following persons may perform collecting activities under terms of this permit:

Richard Didrickson, Benjamin Mann, Terry Suminski, Glen Owsley, Mark Young

Employees and volunteers under the direct supervision of, and in the presence of, one of the authorized personnel listed above may participate in collecting activities under terms of this permit.

Permit Stipulations:

- 1) The local Area Management Biologist, **Troy Tydingco** (747-5355; Troy.Tydingco@alaska.gov) Sitka, must be notified **prior** to you engaging in any collecting activities. *The time/date of this contact must be included in your collections report (using the "data submission form" furnished by ADF&G).* This biologist has the right to specify methods for collecting, as well as limiting the collections of any species by number, time and location.
- 2) ***A report of all escapements by day and by species must be submitted at least weekly to the local biologist (Stipulation #1) during the entire time the weir is up and operating. This report must include daily water temperature and stream height taken at approximately the same time each day.***
- 3) All sampling tools (punches, clippers etc) that are inserted into or cut fish be placed in an iodophor bath with a 1:100 concentration between fish
- 4) If anadromous fish are found in permitted streams and rivers, the permit holder will work closely with ADF&G to see that information is included in the database for the *Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes*. Anadromous fish include *Oncorhynchus spp.*, Arctic char, Dolly Varden, sheefish, smelts, lamprey, whitefish, and sturgeon. Please direct questions to J. Johnson, 267-2337 or j.johnson@alaska.gov
- 5) Please contact Judy Berger of the GCL (907-267-2175, judy.berger@alaska.gov) to obtain sample collection instructions and supplies. The GCL requests a one week notice prior to field deployment for scheduling assembly and shipping of sampling supplies. ALL genetic specimens collected must be delivered to the GCL by this permit's expiration date.
- 6) **Atlantic salmon** and other **invasive aquatic species** encountered should be killed. The nearest ADF&G office (**Stipulation #1**) must be contacted immediately with species identification or description, capture or sighting location, number captured, size, and sex. Preserve/turn in the whole specimen to the nearest ADF&G office.
- 7) *A Title 41 Permit is required from Alaska Department of Natural Resources, Office of Habitat Management and Permitting, to place structures (weir, etc.) in streams.*
- 8) *A copy of this permit, including any amendments, must be made available at all field collection sites and project sites for inspection upon request by a representative of the department or a law enforcement officer.*
- 9) Issuance of this permit does not absolve the permittee from compliance in full with any and all other applicable federal, state, or local laws, regulations, or ordinances.
- 10) **A report of collecting activities**, referenced to this fish resource permit number, must be submitted to the Alaska Department of Fish and Game, Division of Sport Fish HQ, P.O. Box 115525, Juneau, AK 99811-5525, Attention: Bob Piorkowski (465-6109; Robert.Piorkowski@alaska.gov), within 30 days after the expiration of this permit. This report must summarize the number of fish captured by date, by location (provide GPS coordinates and datum), and by species, and the fate of those fish. Fish length, weight, sex, and age data should be included if collected. A completion report (abstract/background/methods /data/analysis), if not submitted with the collection report described above, must be submitted to the department within six months of the expiration of the permit. Data from such reports are considered public information. A report is required whether or not collecting activities were undertaken. A report should also be sent to the Biologist(s) listed under **Stipulation #1**.

PERMIT VALIDATION requires permittee's signature agreeing to abide by permit conditions before beginning collecting activities:

Signature of Permittee
