

LAGOON CREEK COHO SAMPLE

On 8/10/78 Mike Haddix and Gerry Downey collected 96 coho fry just above the I.T. Zone in Lagoon Creek. The coho were for pathological samples to get this stock certified. Frozen coho were hand carried up to Al Didier on 8/14/78.

There were an abundance of coho fry and Dolly Varden in the stream.

LAKE AND STREAM INVENTORY FORM

Name: Anderson Creek Catalog no.: 102-60-90  
 USGS map: Craig C-3 Former no(s):         
 Latitude: 55°-34' 27" Drainage area: 7 mi<sup>2</sup>  
 Longitude: 132° 42' 27" No. lakes in system: 2  
 Location description: Upper Karta River System -  
Kasson Bay, Prince of Wales Island

SIZE AND ELEVATION OF LAKES IN SYSTEM:

Lake Identification	#1	#2						
Size(acres)	80	70						
Elevation(feet)	390	390						

LENGTH AND GRADIENTS OF STREAMS IN SYSTEM:

Stream Identification	Salmon	#1 →					
	#1	#2					
Length(miles)	4.8	.1					
Gradient	81.2	0					

SPECIES OF FISH PRESENT: Sockeye, coho, pink, possibly chum

SPAWNING DATA:

Species	Sockeye	Pink	Chum	
Escapement	74-43	74-750-1000	74-750-1000	
Timing	Early	Late	Late	

PROMINENT PHYSICAL FEATURES OF STREAM: \_\_\_\_\_

LAND USE OF AREA: sport fishing
