Auke Lake and Creek (00646) Lands

According to our records the use of Lot 4, USS 3832, Auke Creek site, was resolved by Right-of-Way Permit No. 18711, issued to Alaska Department of Fish and Game and U. S. Fish and Wildlife Service. This Right-of-Way, however, does not encompass all of the area described in your teletype.

It appears that additional portions of Lot 4 may now be required for more complete watershed control. Classification as public recreation area and incorporating our Right-of-Way will give sufficient protection.

The Division of Lands is checking into this matter and will advise us shortly on availability of the land and will seek the necessary land classification order in several weeks.

I will keep you posted on any changes or developments.
