February 8, 1977

Mr. Fermin Gutierrez
Administrator
City and Borough of Sitka
P.O. Box 79
Sitka, AK 99835

Dear Mr. Gutierrez:

On February 2, 1977, your Electric Department superintendent, James Dwyer, and I made an inspection trip to the fish valve at Sawmill Creek. At that time we adjusted the flow from the fish valve to the reduced flow of 22 cfs, as agreed upon in our study.

Please keep me advised of fluctuations in the lake level so that the valve can be adjusted accordingly.

Thank you for your cooperation in this matter.

Sincerely yours,

Artwin E. Schmidt
Fishery Biologist
ADF&G, Sport Fish Division
