

## MEMORANDUM

State of Alaska

TO: Norm Johnston, Commercial Fisheries  
Roger Wadman, Sport Fish

DATE: April 10, 1975

FILE NO:

TELEPHONE NO:

FROM: Rick Reed *RL*  
Habitat Protection Section

SUBJECT: Chilkoot River Weir

John Vaughn has approached me concerning the necessary permits needed for this structure. While I don't feel it is necessary to write a Title 16 permit, I will undoubtedly be requested by Division of Lands to submit a letter of non-objection before they issue a permit.

What I would like is a memo from Sport Fish indicating their acceptance or rejection of the proposal.

One question I have is what effect the 300 foot closure above and below the weir will have on the local fishery.

Basically what I would like to be able to say to the Division of Lands is that the two fisheries divisions have coordinated on this; and there are no problems or objections.

cc: J. Vaughn
