

79. Reflection Lake *101-80-10840*

The Reflection Lake coho stock was enhanced by fingerling, presmolt and smolt plants (via Deer Mountain Hatchery) from 1988-1993. This stock also became the summer coho hatchery stock for releases in Ketchikan Creek, Ward Lake, Margaret Lake, Bold Island Lakes, Bell Island, Whitman Lake Hatchery, Burnett Inlet, and Neck Lake.

80. Tahltan Lake *108-80-11100*

Tributary lake to the Stikine River. An ongoing cooperative U.S./Canada project identified in the Pacific Salmon Treaty. Tahltan Lake sockeye returns are the brood source for fry planted in Tahltan and Tuya Lakes. Incubation is at Snettisham Hatchery.

81. Tuya Lake *108-80-11300*

Tributary lake to the Stikine River. An ongoing cooperative U.S./Canada project identified in the Pacific Salmon Treaty. Tahltan Lake sockeye returns are the brood source for fry planted in Tuya Lake. Incubation is at Snettisham Hatchery.
