Juneau, Alaska 99801

Dear Lyle:

The recent public relations work which appeared in the June 29th issue of the Southeast Alaska Empire was the only notification the Department of Fish and Game had of boulder removal by blasting in Twin Glacier Creek. Twin Glacier Creek is a cataloged anadromous fish stream and as such requires concurrence of this department, the Division of Lands and since this is navigable water, the Corps of Engineers.

Sincerely,

John Palmes
Regional Habitat Coordinator
