**Aleutian Islands Subdistrict State-Waters Pacific Cod
Season Opening for All State Waters West of 170° W Longitude
and
Closure of the Parallel Season for All State Waters
West of 170° W Longitude
Emergency Order # 4-GF-11-19**

The Aleutian Islands Subdistrict (AIS) state-waters Pacific cod season will open in all state waters west of 170° W long to commercial fishing at 12:00 noon AKDT on March 15, 2019. The parallel Pacific cod season will close for all gear types in all state waters of the AIS west of 170° W long on March 14, 2019 at 12:00 noon AKDT.

The AIS state-waters Pacific cod season opened January 1, 2019 in the Adak Section (between 175° W long to 178° W long) to non-pelagic trawl, jig, or pot gear types vessels 60 feet or less overall length (OAL), and longline vessels 58 feet or less OAL. Beginning 12:00 noon March 15, 2019 the state-waters season will expand to include all state waters west of 170° W long to vessels 125 feet or less OAL using pot gear, vessels 100 feet or less OAL using nonpelagic trawl gear, and vessels 58 feet or less OAL using longline or jig gear.

All Pacific cod caught must be retained. The daily harvest limit for each vessel is 150,000 pounds (round weight) and no more than 150,000 pounds (round weight) of unprocessed Pacific cod may be on board a vessel at any time. All proceeds from overages will be surrendered to the state. Bycatch limits applicable in the parallel Pacific cod season will apply during the state-waters Pacific cod season.

Fishermen, tenders, and processors, must register with the Dutch Harbor ADF&G office prior to participating in the state-waters season. Fishermen must deliver all Pacific cod onboard prior to participating in the AIS state-waters Pacific cod season. Fishermen may not participate in federal and state-waters seasons concurrently. The AIS state-waters season is a non-exclusive registration area for Pacific cod.
