The Northern Chatham Strait and Point Couverden enhanced chum salmon areas will open during the week of June 16. Initial openings in other spring troll areas will be announced in future news releases. Maps and further details are provided in the 2019 Spring Troll Management Plan, which is available in area offices and online.

It is extremely important to keep fish caught in different fishery areas separated so that accurate dockside sampling can occur by department personnel. If more than one area is fished, each troller and tender is required to keep and report these catches separately on **separate fish tickets** [5 AAC 29.090(k)]. The fishery name and the fishery area number must be reported on all fish tickets.
