South Peninsula Area Test Fishery Announcement #03

The Alaska Department of Fish and Game in Sand Point is requesting quotes (bids) to generate revenue by allowing the harvest of commercial salmon in the South Alaska Peninsula Area (Area M). The department is seeking to generate two lots of \$20,000 each. The quotes must be based on the value at the dock. For example, if a fisherman were to bid up to \$30,000 of the total dock value, the fisherman will make \$10,000, and generate \$20,000 of revenue for the department. Any additional revenue, over the \$30,000 will be acquired by the department. The successful contractor or contractors will be the party that quotes the lowest value. The maximum value a contractor may bid is \$40,000. Written bids may be submitted until 5:00 p.m. Saturday, June 8, 2019 and the contract will be immediately awarded to the lowest bidder. Fish and Game reserves the right to reject any or all quotes. In the case of equal, low bids, the bid submitted first will be the winning bid.

Test fishermen will fish only during times and in areas determined by the department in cooperation with the successful bidder. In addition, the department may limit harvest in certain areas. Vessels must contain a refrigerated seawater system (RSW) to chill the catch. Legal fishing gear is required, as is vessel compliance with U.S. Coast Guard safety regulations and insurance requirements.

The bidding process must be completed by 5:00 p.m. Saturday, June 8, 2019.

If you are interested in finding out how to bid on this quote or would like to obtain further details, please contact:
