Bristol Bay Eastside Salmon Update # 09

This is the Alaska Department of Fish and Game in King Salmon with an update for Egegik and Ugashik District commercial fishermen. The time is 12:00 noon and the date is Sunday June 23, 2019.

In Egegik- through June 22 cumulative harvest is 233,000 fish. Yesterday's escapement was 23,000 and cumulative escapement is 50,000

Inriver indices dropped off last night and this morning. Tower counts yesterday showed that passage is about 1.5 days from the inriver fishery to the tower. The department will allow for some additional escapement before committing to additional fishing time and will evaluate results from today's fishery, escapement and inriver information overnight before formulating plans for tomorrow.

Fishermen in all districts are reminded that all king salmon retained must be reported on a fish ticket, and that permit holders must sign fish tickets at time of delivery.

The Ugashik District will remain closed tomorrow.

Egegik and Ugashik fishermen should stand by at 12:00 p.m. Monday June 24 for the next possible announcement.

This has been the Alaska Dept. of Fish & Game in King Salmon.
