**Bristol Bay Red King Crab Season Opens October 15
Total Allowable Catch Announced**

The Alaska Department of Fish and Game (ADF&G) and National Marine Fisheries Service (NMFS) have completed analysis of 2019 NMFS trawl survey results for Bristol Bay red king crab. The 2019/20 Bristol Bay red king crab total allowable catch (TAC) is 3.797 million pounds and the fishing season will open October 15, 2019 at 12:00 noon and remain open through 11:59 pm, January 15, 2020. The 2019/20 TAC is apportioned as follows:

Individual Fishing Quota (IFQ)	3,417,300 pounds
Community Development Quota (CDQ)	379,700 pounds
Total	3,797,000 pounds

A valid United States Coast Guard (USCG) Commercial Fisheries Vessel Safety Decal is required before a vessel registration may be issued. Vessels must also have an activated vessel monitoring system approved by NMFS. The operator of a vessel participating in IFQ or CDQ crab fisheries must notify the USCG at least 24 hours prior to departing port when carrying crab pot gear. USCG can be contacted at: (907) 581-3466 or (907) 359-1575 (after hours).

At the time of vessel registration, all pots onboard the vessel and in wet storage must be in compliance with current Bristol Bay red king crab fishing regulations. There is no crab pot limit or buoy tag requirement for the Bristol Bay red king crab fishery. Fishermen may register up to 10 groundfish pots. Fishermen are reminded to report all Pacific cod retained for bait on fish tickets at time of landing.

A fisherman may transport crab pot gear to the fishing grounds for another fisherman. The registered fisherman of the crab pot gear has seven days to be active in the registration area where the gear is deployed. Fishermen may register for gear operation cooperatives, and a fisherman may

make a one-time transfer of all pot gear to one other fisherman at the completion of fishing operations.

Preseason gear inspections will be available beginning October 7, 2019 in Dutch Harbor and Kodiak and October 12 in King Cove and Akutan. Vessel registration will begin at 9:00 a.m. October 14, 2019. An individual holding a current Commercial Fisheries Entry Commission (CFEC) Bristol Bay king crab interim use permit card (K91T or K09T) must be present during registration. Fishermen may participate concurrently in IFQ and CDQ fisheries, but a separate registration and CFEC permit card are required for each fishery and CDQ group.

Fishermen must notify ADF&G within 72 hours of completing fishing operations in the registration area or when departing the registration area with gear in long-term storage or transferred to another vessel. Unbaited gear with doors open may be stored for up to 14 days outside of designated storage areas after fishing is completed. Pots must be removed from the water or placed in long-term storage if left unattended in a registration area for more than 14 days. A fisherman's registration will be invalidated after 14 days of inactivity in a registration area.

For questions regarding issuance of quota share and IFQ/IPQ, contact NOAA Fisheries RAM Division at 1-800-304-4846 (option #2). For questions regarding federal Crab Rationalization Program regulations, contact NOAA Fisheries Sustainable Fisheries Division at (907) 586-7228 or the NOAA Office of Law Enforcement in Kodiak at (907) 486-3298 or Dutch Harbor at (907) 581-2061.

For further information contact ADF&G Dutch Harbor at (907) 581-1239, or ADF&G Kodiak at (907) 486-1840.
