During the commercial fishing season, subsistence harvest may occur in the Copper River District concurrent in time and area with commercial fishing periods until the Copper River District is closed at the end of the season. **Additionally, waters of the Copper River District, will be OPEN to subsistence fishing from 6:00 am to 10:00 pm on Saturday, August 1.** Subsistence users may obtain subsistence permits during regular business hours. The Cordova ADF&G office is open to the public Monday - Friday, 8:00 am - 12:00 pm and 1:00 pm - 5:00 pm. **Subsistence permits are not available outside of regular office hours.** Permit holders are encouraged to call the Cordova office at 907-424-3212 or report online (<https://www.adfg.alaska.gov/Harvest/>) to provide preliminary harvest reports to assist with inseason harvest tracking.

To date, the sonar count is the 12th lowest on record (1978-2020). Cumulative commercial harvest this year is the 4th lowest harvest to-date in the last 50 years. Cumulative sonar count through 7/24 is 526,223 fish whereas 604,153

fish are projected by this date. The 0600 count for 7/25 is 65 fish. For the week ending July 18, the Copper River Delta survey count was 35,985 sockeye salmon versus an anticipated range of 31,424 – 74,276.

BERING RIVER DISTRICT: The Bering River District will remain closed to commercial fishing. For the week ending July 11, the Bering River District survey count was 11,450 sockeye salmon versus an anticipated range of 11,051 – 24,313.

ESHAMY DISTRICT: Waters of Eshamy Bay, west of a line from 60° 28.51'N., 147° 59.10'W. to 60° 27.94'N., 147° 57.87'W., and waters of the Main Bay Subdistrict will open to commercial gillnet harvest for a 24-hour period starting at 8:00 a.m. on Monday, July 27. The AGZ will open to DRIFT GILLNET permit holders only during this fishing period. Fishing time and area is being reduced in the Eshamy District based on wild stock abundance indices. Harvest estimates from the 36-hour period that started on Thursday, July 23 were 3,200 sockeye, 58,800 pink, and 800 chum salmon with 157 deliveries reported.

PWSAC has completed cost recovery and brood collection at MBH and recommends opening the Main Bay Subdistrict to the CPF. **In response to COVID-19, all PWSAC facilities are closed to the public until further notice.**

UNAKWIK DISTRICT: The Unakwik District is closed for the season.

COGHILL DISTRICT: The Coghill district will remain closed to commercial fishing.

SEINE FISHERIES: A broad area commercial fishing opener is expected within PWS on Tuesday, July 28, with time and area to be announced at 2:00 pm on Monday, July 27. VFDA is recommending a closure of Port Valdez at this time in order to assess broodstock. Time and area for future commercial fishing periods targeting VFDA pink salmon in Port Valdez will be based on continued run entry and broodstock needs.

PWSAC began its cost recovery sales program on Friday, July 24, and has collected approximately 2% of the assigned pink salmon revenue goal through July 24. Cost recovery pink salmon harvest at WNH on Friday, July 24 resulted in an average weight of 3.5 pounds per fish and 19% female. Cost recovery fishing continues today at WNH and AFK, and early reports indicate run entry remains slow at all facilities.

Aerial surveys of all districts are expected to be conducted later this week, weather dependent, to further assess the strength of wild stock returns throughout PWS. It is anticipated that future fishing opportunity directed on wild stocks will initially be limited to one to two days per week. **Time and area for future commercial fishing periods targeting wild stock pink and chum salmon will be dependent upon escapement, harvest, and effort.**

In response to COVID-19, all PWSAC facilities are closed to the public until further notice.
