KODIAK COMMERCIAL HERRING SAC ROE FISHERY ADVISORY ANNOUNCEMENT #02 For Emergency Order #4-FH-K-02-21

Due to presence of herring spawn, the **Shearwater Bay Section (EA42) of the combined Shearwater Bay (EA42) Outer Kiliuda Bay (EA43), and Inner Kiliuda Bay (EA44) sections of the Eastside District** closed to commercial herring fishing at **noon Friday, April 2**. The **Outer Kiliuda Bay (EA43) and Inner Kiliuda Bay (EA44) sections of the Eastside District** remain open to commercial herring fishing and will follow the fishing schedule as described in regulation.

As Previously Announced:

The Kodiak herring sac roe fishery began at **noon Thursday, April 1, 2021**. All herring permit holders, buyers and tender operators participating are **required to register** with the ADF&G Kodiak office or with ADF&G personnel on the grounds prior to operations.

FISHING PERIODS:

PURSE SEINE: Fishing periods for purse seine gear will be noon to 9:00 p.m. on odd-numbered days and 9:00 a.m. to noon on even-numbered days.

GILLNET: Gillnet fishing periods will be noon on even-numbered days to noon on odd-numbered days starting April 2.

GHLs and maps of open sections are available at the Kodiak office and in the herring sac roe fishery harvest strategy for the 2021 season. Fishermen are urged to check with their market and test their catch prior to landing herring. Determining if size or roe quality meets processor standards is the responsibility of fishermen and industry. It is anticipated that many small and green fish will be present on the grounds during the initial open fishing periods. Recent fishery information may be obtained by calling the Department's message phone at 486-4559.
