**Prince William Sound Salmon Fishery Announcement #22**

**COPPER RIVER DISTRICT:** The Copper River District will open at 7:00 am on Monday, July 5 for a 24-hour commercial drift gillnet fishing period. Waters within the **standard Chinook salmon inside closure area** will be **OPEN** during this fishing period. Daily and cumulative passage at the Miles Lake sonar station indicates that the inriver goal is likely to be met and supports opening the Copper River District commercial fishery. Copper River District Chinook salmon average harvest timing (2011-2020) is 99% complete through this date.

During the commercial fishing season, subsistence harvest may occur in the Copper River District concurrent in time and area with commercial fishing periods until the Copper River District is closed at the end of the season. Additionally, waters of the Copper River District, **including** the standard Chinook salmon inside closure area, will open to subsistence fishing from 6:00 am to 10:00 pm on all Saturdays between July 4 and October 31.
