### **Cold Bay Subsistence Salmon Fishery Advisory Announcement #01 For Emergency Order #4-FS-M-CB-01-22**

**Effective 12:01 a.m. Saturday, June 25, subsistence salmon may not be taken within 500 yards of the outlet stream terminus to McLees Lake until further notice.** As a reminder to subsistence fishers in the Unalaska District, salmon may only be taken for subsistence purposes from 6:00 a.m. until 9:00 p.m.

The 2022 sockeye salmon escapement into McLees Lake through June 23 is 45 fish, which is below the 10-year average of 5,510 for this date and below the annual escapement goal of 10,000 fish. In an effort to conserve McLees Lake sockeye salmon, the Alaska Department of Fish and Game will move up the start of the regularly scheduled 500-yard closure around the terminus of the McLees Lake outlet stream.

Sockeye salmon escapement into the McLees Lake system will continue to be monitored daily. Areas open to subsistence salmon fishing may be adjusted based on changes in the run strength. If the McLees Lake sockeye salmon run improves, waters closed to subsistence fishing will be reopened to provide additional opportunity.

The Alaska Department of Fish and Game, under the direction of the Alaska Board of Fisheries, manages sport, commercial, personal use, and state subsistence harvest on all lands and waters throughout Alaska. However, Title VIII of ANILCA provides a subsistence priority for federally qualified rural residents.

Subsistence fishers are reminded that they should consult both State of Alaska fishing regulations and the Federal Subsistence Management regulations prior to subsistence fishing.

Subsistence fishermen must obtain a permit and have it in their possession while harvesting salmon under subsistence guidelines.

Information regarding salmon fishery announcements may be obtained from ADF&G in Cold Bay at 907-532-2419 or ADF&G in Sand Point at 383-2066.
