### **Trip Limit Increased in the Southeast and Westside Districts of the Kodiak Area for Directed Commercial Black Rockfish Fishing**

#### **Emergency Order 4-GF-15-22**

Effective 12:01 a.m. August 15, 2022, the 5-day possession limit for black rockfish will increase from 5,000 pounds to 7,000 pounds (round weight) during the directed commercial black rockfish fishery in the Southeast and Westside Districts of the Kodiak Area.

Vessel operators are reminded that mechanical jig and hand troll gear are the only legal gear types for the directed fishery. A black rockfish district registration is required prior to fishing and completed logbooks must be submitted to ADF&G after each trip. A vessel may not participate in a parallel or state-waters Pacific cod fishery while registered for the Kodiak Area black rockfish fishery.

For more information, contact ADF&G in Kodiak at (907) 486-1840.
