There are currently no processors interested in purchasing sea cucumbers from the Sitka management area. The guideline harvest level from this area will be available until the season closes by regulation on March 31, 2023. The department will consider reopening this area if there is expressed interest. Interested divers and processors should contact Area Management staff with plans prior to 12:00 noon on Thursday for a potential fishery the following week.

For a description of the above areas, please refer to the Southeast Alaska commercial sea cucumber fishery announcement dated August 26, 2022, announcing the open areas and their guideline harvest levels (GHL). The next advisory announcement following this opening will be available on **Thursday, March 2, 2023.**

The Emergency Order corresponding with this announcement is EO 1M1223.
