**As a reminder, District 6 sections were revised during the 2022 Southeast Alaska Finfish and Shellfish Board of Fisheries meeting. Section 6-D has been amended to only include the area east of Section 6-C commonly referred to as the “Screen Islands” area. The remainder of former Section 6-D, in Stikine Strait and south of a line drawn between Point Stanhope and Luck Point to the southern district boundary, has been designated as a new section, Section 6-E. Section 6-E is a purse seine only area. A map of this area can be viewed online at:**

**Fishermen and processors are reminded that all salmon, including steelhead, commercially harvested but retained for personal use and not sold, must be reported on fish tickets at the time of delivery.**

All Chinook salmon harvested in the commercial drift gillnet fisheries may be retained and sold. Chinook salmon less than 28 inches in length and those of Alaska hatchery origin will not be counted against Southeast Alaska’s all gear harvest limit of the Pacific Salmon Treaty. Therefore, fishermen and tenders are requested to keep Chinook salmon harvested in THAs separate from those harvested in traditional fishing areas. Separating these harvests will allow for better accounting of harvests and assist in sampling the harvests to identify Alaska hatchery-produced Chinook salmon.

The Emergency Order corresponding to this announcement is EO 1S1023.
