2023 HAWK INLET SALMON PURSE SEINE TEST FISHERY UPDATE # 2

The department conducted the second of the 2023 Hawk Inlet shoreline test fisheries on Friday, July 7. Comparing the daily harvests to the recent 10-year average harvests on or around this date, all salmon harvests were above average except for coho salmon which was below average. Sockeye salmon harvest was 124% of average, chum salmon harvest was 190% of average, and pink salmon harvest was 156% of average.

The pink salmon sex ratio was 61% male, slightly below the average of 62% male for previous year's test fisheries conducted on or around this date.
