UPPER COOK INLET COMMERCIAL FISHING ANNOUNCEMENT No. 18
EMERGENCY ORDER NUMBER 2-F-H-21-24

Commercial salmon fishing with drift gillnets will be open district wide in State of Alaska waters of the Central District, excluding the Chinitna Bay subdistrict, from 7:00 a.m. to 7:00 p.m. on Saturday, July 6, 2024. Commercial salmon fishing with drift gillnets will be extended in the Expanded Kasilof Section only from 7:00 p.m. to 10:00 p.m. on Saturday, July 6, 2024.

As a Reminder: This announcement **DOES NOT** open federal waters of UCI. Please check with the appropriate federal agency regarding fishing periods in the Exclusive Economic Zone (EEZ) and federal fishery regulations.

Drift gillnet fishing is prohibited within 2-miles of the Kenai Peninsula shoreline in compliance with the *Kenai River Late-run King Salmon Stock of Concern Management Plan (5 AAC 21.382)*.

Through July 4, the cumulative sockeye salmon escapement estimate for the Kasilof River was 229,866 fish and the current mean run timing projection of escapement is approximately 872,000 sockeye salmon which exceeds the biological escapement goal of 140,000–320,000 sockeye salmon. Fishing in the above-described waters is warranted to target sockeye salmon returning to the Kasilof River.

Fishermen and processors are reminded of the legal requirement to report all commercially harvested salmon on a fish ticket, whether sold or kept for personal use (5 AAC 39.130(c)(7)). During district wide periods, harvest should be reported in the statistical area that fish are caught in. Use the expanded Full Corridor and Anchor Point Section code, 244-57, when fishing in the expanded full corridor area.

General Information for all UCI commercial fisheries and specifics about harvest levels, required permits, reporting requirements, or the registration processes, can be obtained by calling the Soldotna ADF&G staff at 907-262-9368, and also found at the ADF&G UCI commercial fisheries web site. <https://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareauci.main>
