DEEP INLET TERMINAL HARVEST AREA FISHERY ANNOUNCEMENT

The Deep Inlet Terminal Harvest Area (THA) **will be closed to all common property commercial salmon fisheries effective 12:01 a.m., Sunday, August 25, 2024.** This closure will remain in effect until further notice.

The Northern Southeast Regional Aquaculture Association (NSRAA) has requested the Alaska Department of Fish and Game (ADF&G) close the Deep Inlet THA to all common property commercial salmon fisheries beginning on Sunday, August 25, to facilitate fall chum salmon cost recovery harvest and broodstock collection. This area will reopen to common property harvest following the conclusion of cost recovery operations and broodstock collection. NSRAA will attempt to complete cost recovery as quickly as possible and will provide updates daily to ADF&G on the progress of their cost recovery harvest and the status of brood stock collection.

The Emergency Order corresponding with this announcement is EO 1E2924.
