2024/25 Catcher Vessel Selection Lists for Observer Coverage for Bristol Bay Red King, Eastern and Western Bering Sea Tanner (bairdi), and Bering Sea Snow (opilio) Crab Fisheries

This advisory announcement serves as reminder that all vessels pre-season registered for the 2024/25 Bristol Bay red king, Eastern and Western Bering Sea Tanner (bairdi), and Bering Sea snow (opilio) crab fisheries are selected for crab observer coverage. Vessel selection does not imply a fishery will open during the 2024/25 season. Fishery information will be announced by subsequent ADF&G advisory announcement.

The state-contracted observer company, Saltwater Inc., will provide observers for catcher vessels. Vessel operators or authorized agents are responsible for contacting Saltwater to coordinate observer coverage, to include notifying Saltwater if you choose to not participate in these fisheries.

Saltwater may be contacted at: (907) 539-2548.

ADF&G will deploy observers during the 2024/25 rationalized crab season consistent with the partial coverage deployment objectives for each fishery defined in state regulation (5 AAC 39.645 (c)(d)). Vessels not selected for observer coverage will be issued an observer coverage waiver. **Failure to provide Saltwater a minimum of 10 days' advance notice prior to vessel departure may delay fishing operations or result in enforcement action. Observer coverage waivers will not be issued if an observer is not available due to lack of sufficient notice.**

If selected to carry a crab observer, catcher vessels will be required to carry an observer during 100 percent of fishing activities in a designated fishery. Catcher vessel observer deployment costs will be paid for using a combination of ADF&G and federal cost-recovery funding. Processing vessels arrange and pay for their own observer coverage. Catcher-processor vessels may receive reimbursement from ADF&G for up to 30 percent of observer deployment costs for Bristol Bay red king, Bering Sea Tanner, and Bering Sea snow crab.

Observers will be equipped with their own rain gear, boots, gloves, immersion suit, personal locator beacon, personal flotation device, and personal items.

For vessels that carry observers, important regulatory requirements include:

- Display proof of compliance with United States Coast Guard vessel safety requirements;
- Provide food and accommodations equal to that of the vessel's crew;
- Provide daily fishing information and other information specified by ADF&G;
- Provide a safe work area to sample that is not regularly crowded with pots;
- Provide five totes to use at all times for sampling;
- Provide access to email or telephone for catch reporting.

This list is not exhaustive. For a complete listing of requirements see 5 AAC 39.645 (i).

If you have questions or concerns regarding observer coverage requirements or observer performance, please contact the Shellfish Observer Program Coordinator directly at (907) 486-1854.

The lists of catcher vessels selected to carry crab observers are as follows, by fishery:

Bristol Bay Red King Crab

All vessels that preseason registered for Bristol Bay red king crab are listed and should be prepared to carry an observer.
