PRINCE WILLIAM SOUND COMMERCIAL SABLEFISH FISHERY UPDATE SEASON OPENING AND QUOTA ALLOCATIONS

The 2014 PWS sablefish season will open April 15 with a 242,000 lb guideline harvest level (GHL). Fishing may occur in **Inside District waters only** and season dates are **April 15 - August 31**. The fishery is managed via quota allocations among vessel size permit classes as specified in regulation 5 AAC 28.272. The table below indicates the number of registered permits, quota allocation in round weight and dressed (eastern cut) weight by permit category.

Permit Category	Registered Permits	Quota Round (lb)	Quota Dressed (lb)
A & B	4	7,932	4,997
C	36	4,691	2,955
D	12	3,450	2,174

Each permit holder's catch total will be verified based on the sablefish weight as delivered. To avoid any misunderstanding, processors are required to report round weight pounds for all deliveries of whole fish. Deliveries of dressed fish shall be reported on the fish ticket in both dressed weight and as a round weight conversion.

Fishermen are reminded that a sablefish quota overage is an illegal harvest and may be subject to prosecution. All sablefish in excess of an individual's quota allocation must be noted on the fish ticket as a "sablefish overage" and a check to the State of Alaska for the value of the overage must accompany the fish ticket.

Reporting requirements: Logbook sheets must be completed and returned within 10 days after each landing. Logbook sheets may be submitted in person, by mail (ADF&G P.O. Box 669, Cordova, AK 99574), by fax (907) 424-3235, or accompanying the fish ticket. Six-hour prior notice of landing for sablefish is required by calling (907) 424-7225 and reporting:

- 1) the permit holder name and landing location;
- 2) the name of the buyer or processor;
- 3) the estimated time of arrival;
- 4) the estimated number of pounds of sablefish on board, and whether the fish is dressed or in the round.

Additional fishery regulations:

- 1) A vessel operator shall unload all sablefish taken in the PWS management area, and a copy of the completed fish ticket must be submitted to ADF&G before taking sablefish in another area (5 AAC 28.272.(a)).
- 2) A vessel operator with sablefish on board that were taken in another area may not take sablefish in the PWS management area (5 AAC 28.272.(b)).
- 3) When targeting sablefish in PWS, **copies of all completed PWS sablefish fish tickets issued to a sablefish permit holder for the current season must be retained on board** (5 AAC 28.272.(d)).

Bycatch limits: Bycatch limits by species or species aggregate for the Prince William Sound Management Area state-waters sablefish fishery are set as follows by Emergency Order 2-GF-E-06-14 as round weight of bycatch as a percentage of the round weight of the target species:

- (1) may retain 20 percent Pacific cod;
- (2) may retain 15 percent skate species in aggregate except;
(A) may not retain big skate after 12:00 noon February 6;
- (3) may retain 15 percent shark species in aggregate (includes spiny dogfish);
- (4) may not retain lingcod prior to July 1; after July 1 may retain 20 percent lingcod;
- (5) may retain 20 percent pollock;
- (6) must retain all rockfish (and thornyhead) as required by 5 AAC 28.265 and any rockfish in excess of 20 percent in aggregate must be weighed and reported as bycatch overage on an ADF&G fish ticket;
(A) no rockfish landing or combination of landings may exceed the 5-day trip limit of 3,000 pounds
- (7) may retain 20 percent other groundfish in aggregate.

For additional information, contact ADF&G in Cordova, at 907-424-3212.
