**KODIAK COMMERCIAL HERRING SAC ROE FISHERY NEWS RELEASE # 05
For Emergency Order #4-FH-K-05-14**

Commercial herring fishing was **extended** for purse seine gear only in the **Danger Bay Section (SA40) of the South Afognak District** from **7:00 p.m. to 9:00 p.m. Tuesday April 22, 2014.**

As Previously Announced:

Commercial herring fishing **opened** for seine gear only in the **Danger Bay Section (SA40) of the South Afognak District** from **3:00 p.m. to 7:00 p.m. Tuesday April 22, 2014.**

Commercial herring fishing **opened** for seine gear only in the **Danger Bay Section (SA40) of the South Afognak District** from **10:15 a.m. to 12:15 p.m. Tuesday April 22, 2014.**

The Alaska Department of Fish and Game (ADF&G) in Kodiak has issued a news release for the Kodiak herring sac roe fishery, which began at **noon Tuesday April 15, 2014.** All herring buyers and tender operators are required to register at the ADF&G Kodiak office prior to buying or tendering herring in the Kodiak Area. In addition, an emergency order (#4-FH-K-01-14) has been issued describing the fishing periods and guideline harvest levels (GHLs) by gear type and by section, as follows:

GILLNET GEAR

Fishing periods for **most** gillnet sections began at **noon Tuesday April 15, 2014** and currently remain **open until further notice**, in **only** the following sections.

<u>Afognak Districts:</u>	<u>GHL</u>	<u>Inner Marmot District:</u>	<u>GHL</u>	<u>Alitak District:</u>	<u>GHL</u>
(WA20) Malina Bay	10	(IM20) Anton Larsen	15	(AL30) Sulua Bay	75
(WA10) Raspberry Strait	10	(IM30) Sharatin Bay	30	(AL40) Lower Olga-Moser	50
(NA30) Perenosa Bay	10				
(NA50) Tonki	40				
<u>Northeast District:</u>		<u>Uganik District:</u>		<u>Eastside District:</u>	
(NE10) Womens Bay	25	(UG20) Viekoda Bay	25	(EA24) Barling Bay	125
(NE20) Kalsin Bay	25	(UG21) Terror Bay	30	(EA42) Shearwater Bay	125
		(UG31) West Uganik	50	(EA44) Inner Kiliuda Bay	100
		Passage		(EA51) Inner Ugak Bay	200
				(EA52) Pasagshak Bay	10

PURSE SEINE GEAR

The first fishing period for **most** sections began at **noon Tuesday April 15, 2014**. Purse seine fishing periods are **noon to 9:00 p.m. on odd-numbered days** (NINE hour open periods), and **9:00 a.m. to noon on even-numbered days** (THREE hour open periods), followed by a 24 hour closed period in **only** the following sections:

<u>Afognak Districts:</u>	<u>GHL</u>	<u>Alitak District:</u>	<u>GHL</u>	<u>Eastside District:</u>	<u>GHL</u>
(SA10-30) Izhut, Kitoi, and MacDonalds Lagoon	100	(AL20) Inner Alitak*	75	(EA21) Three Saints Bay	100
		(AL21, 22) Inner and Outer Deadman bays	300	(EA23) West Sitkalidak Strait	300
		(AL41) East Upper Olga Bay	50	(EA30) East Sitkalidak Strait	300
		(AL50) West Upper Olga Bay	50		
				<u>Inner Marmot District:</u>	
				(IM40) Kizhuyak Bay	225

*AL20 mislabeled as a gillnet section on 2014 statistical chart.

PURSE SEINE GEAR (DELAYED OPENING) AREAS

The following sections will also be open to purse seine gear, but the initial purse seine fishing period will be delayed. There will be a 24 hour advance notice prior to opening these areas:

<u>Eastside District:</u>	<u>GHL</u>
(EA50) Outer Ugak Bay	450

COMBINED GEAR AREAS

The following sections will be open to both purse seine and gillnet gear:

	<u>Gillnet</u>	<u>Seine</u>
<u>Afognak Districts:</u>	<u>GHL</u>	<u>GHL</u>
(SA40) Danger Bay	200	800
<u>Uganik District:</u>		
(UG30, 32-34) Village Is., NE Arm, E Arm, and S Arm Uganik Bay	350	1,350

In combined gear areas, the first gillnet opening will be allowed after the first successful purse seine opening.

Test fishing in the combined Village Islands/Uganik Bay sections and the Danger Bay Section began on April 15. These sections or portions of these sections will open by emergency order from an ADF&G management biologist on the grounds. Fishing periods and specific areas to be opened in the Village Islands/Uganik Bay sections will be determined inseason. Gear types will be allowed to fish on alternating days, with purse seine gear fished first, once good quality herring are found.

Emergency order fisheries in the Village Islands/Uganik Bay and Danger Bay sections will allow orderly fisheries on high quality herring. Fisheries will only open after test fishing detects fishable quantities of good quality herring (size and roe content). Fisheries may be short in duration (perhaps less than ten minutes for seine gear or as little as five hours for gillnet gear) and in limited areas within a section. Cooperation from fishing vessels and industry technicians is needed to test herring quality in these sections.

EXPLORATORY AREAS

The following sections are designated as EXPLORATORY, and will be open to either gear type, with differential fishing periods by gear type as outlined above for purse seine or gillnet gear:

Afognak Districts:

(NA20) Delphin Bay
(WA40) Bluefox Bay

Alitak District:

(AL60) Geese/Two Headed

Mainland Districts:

(NM20) Inner Kukak Bay
(MM10) Inner Katmai Bay
(MM30) Alinchak Bay
(MM40) Puale Bay
(MM50) Portage Bay
(SM10) Wide Bay

Eastside District:

(EA10) Kaiugnak Bay
(EA20) SW Sitkalidak
(EA22) Newman Bay
(EA31) Tanginak Anchorage

The remainder of the Kodiak Area will stay closed to commercial herring fishing for the entire sac roe season.

Beginning May 1, ADF&G may open any area with remaining herring GHs to any gear group if the fishery is not likely to result in overharvest of the resource. All Kodiak commercial sac roe herring fishermen that wish to continue fishing after April 30 must be registered with the department. Registration may be accomplished either in the Kodiak fish and game office, or with fish and game personnel available in the field.

GHs and maps of open sections and gear assignments are available at the Kodiak office, in the herring sac roe fishery harvest strategy for the 2014 season. Fishermen are urged to check with their market and test their catch prior to landing herring. Determining if size or roe quality meets processor standards is the responsibility of fishermen and industry. It is anticipated that many small and green fish will be present on the grounds during the initial open fishing periods. Recent fishery information may be obtained by calling the Department's 24-hour record-a-phone at 486-4559.
