Prince William Sound Salmon Fishery News Release #11

COPPER RIVER DISTRICT: The Copper River District will open at **7:00 pm** on Thursday, June 12 for a 48-hour commercial fishing period. Waters within the Chinook salmon inside closure area will be closed during this period. **For the remainder of the 2014 fishing season the Chinook salmon inside closure area will be defined as waters north of a line connecting the following points:**

Point	*Latitude*	*Longitude*
Steamboat North	**60˚ 22.87' N.**	**145˚ 33.50' W.**
Steamboat South	60˚ 22.31' N.	145˚ 33.50' W.
West side Pete Dahl Entrance	60˚ 18.89' N.	145˚ 30.99' W.
West end Grass Island	60˚ 18.30' N.	145˚ 28.42' W.
East end Grass Island	60˚ 15.24' N.	145˚ 17.89' W.
West end Kokenhenik Bar	60˚ 15.00' N.	145˚ 16.20' W.
East end Kokenhenik Bar	60˚ 13.65' N.	145˚ 09.46' W.
Western tip of Softuk Bar	60˚ 13.68' N.	145˚ 05.78' W.
Coffee Creek West	60˚ 14.13' N.	144˚ 58.31' W.

Cumulative sonar count to date is 573,000 fish whereas the anticipated count for this date is 317,000 fish. For the week ending June 7, the actual Copper River delta survey count was 2,885 versus a minimum anticipated goal of 2,697 sockeye salmon. An aerial survey of the Copper River Delta is anticipated to be flown late this week or early next week. A preliminary harvest estimate from the 48-hour period that began on Monday, June 9 is not yet available, but the sockeye salmon harvest is expected to be double the anticipated of 79,000 sockeye salmon.

During the commercial fishing season subsistence harvest may occur in the Copper River District concurrent with commercial periods until the Copper River District is closed at the end of the season. Subsistence users may obtain subsistence permits during regular business hours. The Cordova ADF&G office is open to the public Monday - Friday, 8:00 am - 12:00 pm and 1:00 pm - 5:00 pm. **Subsistence permits are not available outside of regular office hours.**

COGHILL DISTRICT: The Coghill District, excluding waters of the Esther and Granite Bay Subdistricts, will open to commercial drift gillnet harvest for a 60-hour period starting at 8:00 am on Thursday, June 12. The Esther and Granite Bay Subdistricts, excluding the WNH THA and SHA, will open to commercial fishing for a 24-hour period starting at 8:00 am on Thursday, June 12. Harvest from the period that closed Saturday, June 7 was 18,300 chum and 2,700 sockeye salmon with 158 deliveries reported.

The Coghill weir was operational as of Sunday, June 8. A total of 23 sockeye salmon were passed at the weir yesterday for a season cumulative of 23 fish. An estimated total run of 168,000 sockeye salmon are expected to return to the Coghill River, with an SEG of 20-40 thousand fish to be passed at the weir.

ESHAMY DISTRICT: The Eshamy District will open to commercial gillnet harvest for a 60-hour period starting at 8:00 am on Thursday, June 12. **The MBH AGZ will be closed during this fishing period.** Harvest from the period that closed Saturday, June 7 was 18,200 sockeye and 3,200 chum salmon with 161 deliveries reported.

MONTAGUE DISTRICT: The Port Chalmers Subdistrict will open to purse seine fishing for 84 hours at 8:00 am on Thursday, June 12 with an additional 60-hour period beginning at 8:00 am on Monday, June 16. The western boundary of the Port Chalmers Subdistrict is defined by lines from 60°20.00'N., 147°26.59'W. to 60°14.75'N., 147°35.35'W. to 60°02.50'N., 147°44.41'W. Regulatory closed waters and anadromous stream closures within the Port Chalmers

Subdistrict will not be in effect until further notice. Harvest from the period that closed Sunday, June 8 was 10,800 chum salmon with 21 deliveries reported. A total of 495,000 chum salmon are forecast to return to Port Chalmers. The run timing for these chum salmon is from June 1 – July 27.

SOUTHWESTERN DISTRICT: The AFK Hatchery THA and SHA will open to purse seine fishing for 84 hours at 8:00 am on Thursday, June 12 with an additional 60-hour period beginning at 8:00 am on Monday, June 16. Anadromous stream closures within the AFK Hatchery THA and SHA will not be in effect until further notice. Harvest from the period that closed Sunday, June 8 was 2,500 chum salmon with 9 deliveries reported. A total of 492,000 chum salmon are forecast to return to AFK Hatchery. The run timing for these chum salmon is from June 1 – July 27.

Copies of the updated regulation booklet, *2012-2015 Commercial Salmon Fishing Regulations for Prince William Sound,* can be found under the 'Regulations' heading at the following web address:
http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareapws.salmon#/management

The next scheduled salmon fisheries announcement is anticipated to be at 2:00 pm Saturday, June 14.

Permit holders are advised that unscheduled announcements based on current escapement data may occur at any time inseason either establishing an additional period or extending an open period.
Announcement recordings are available for **gillnet fisheries at 907-424-7535 and seine fisheries at 907-424-7345. In addition, announcement recordings are available in Anchorage at 267-2843.**

Additionally, announcements, inseason harvest data, and escapement data are available at the following web addresses:
http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareacopperriver.main (Copper River homepage) or
http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareapws.main (Prince William Sound homepage).
Unless otherwise specified, all openings are clock openings based on Alaska Daylight Time, which is based on Coordinated Universal Time and may be obtained by calling 303-499-7111.
The department encourages commercial permit holders to renew their licenses early and to check their CFEC vessel registration stickers to make sure that they are current. The department also encourages permit holders to report observed violations to Wildlife Safeguard at 800-478-3377. Reports are anonymous and cash rewards may be paid for successful prosecution of violations.

PWS commercial fishers are reminded that area fisheries often necessitate fishing in close proximity to marine mammals. Under the Marine Mammals Protection Act (MMPA), the PWS drift gillnet fishery is classified as a Category II fishery. Participants in Category I and II fisheries must be registered in the Marine Mammal Avoidance Program (MMAP) to be authorized for lawful incidental, but not intentional, marine mammal takes during fishing. However, this authorization explicitly does **not** exempt holders of commercial fishing permits from the MMPA prohibition on takes of marine mammals listed as endangered or threatened under the Endangered Species Act. As a participant in the PWS drift gillnet fishery you are automatically registered in the Marine Mammal Authorization Program (MMAP) by the National Marine Fisheries Service (NMFS). As a participant in a Category II fishery, you must:

- Maintain an MMAP Authorization Certificate, or a photocopy, on board the vessel while engaging in any of the fisheries identified on the reverse side of the certificate. For non-vessel or set net fisheries, the enclosed Certificate, or a photocopy, must be in the possession of the permit holder during fishing operations. This Certificate, in combination with a current, valid state or Federal fishing permit, will serve as your authorization to incidentally take non-endangered or non-threatened marine mammals in the course of commercial fishing operations.
- Report all injuries and mortalities of marine mammals within 48 hours of returning from the trip during which these takes occurred using the MMAP Mortality/Injury Reporting Form (visit http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap_reporting_form.pdf for a copy).
- If so requested, take an observer aboard your vessel.

Purse seine and set gillnet gear are classified as a category III fisheries under the MMPA. Category III fishery participants are automatically exempted from the incidental take prohibition in the MMPA. Therefore, you do not need to maintain the MMAP certificate aboard your vessel, but must report any incidental takes of marine mammals within 48 hours of the incident or your return to port. Such reports must be made on the Marine Mammals Authorization Program Mortality/Injury Reporting Form.

Because some marine mammals are also listed under the Endangered Species Act, incidental takes are also regulated under that act and are not authorized. **All** MMPA category fisheries are liable for incidentally taking ESA listed species.

Please reference http://www.nmfs.noaa.gov/pr/pdfs/esa_factsheet.pdf for a list of marine mammals currently listed under the ESA (you should periodically check with the National Marine Fisheries Service for any changes in listed species).

Under the ESA, "take" means to "harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct." "16U.S.C. 1532(19); and "harass" means an "intentional or negligent act or omission which creates the likelihood of injury to the wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering." (50 C.F.R. 17.3).

To reduce the possibility of incidentally taking an ESA listed species and its associated liability ADF&G recommends that:

- Fishermen participating in area fisheries remain vigilant in monitoring gear when marine mammals may be present.
- Fishermen use avoidance measures (e.g., not fishing or relocating fishing activities when marine mammals are present or likely to be present) to minimize interactions with marine mammals.
- Avoid fishing in areas where marine mammals are likely to be present at night or when visibility or weather conditions make it difficult to spot marine mammals.

For further questions concerning marine mammal regulations call NMFS at 907-271-5006.
