**Bristol Bay Eastside Salmon # 06  
E.O. # 11**

This is the Alaska Department of Fish and Game in King Salmon with an announcement for Egegik District subsistence fishermen and an update for Ugashik commercial fishermen. The time of this announcement is **12:00 p.m.** and the date is **Thursday, June 19, 2014.**

The inriver test fishery detected a slight increase in passage last night and this morning. The department is still assessing the information and will allow additional escapement today. Tower counts from yesterday are 3,600 fish and the midnight to 6 am count this morning was 2,500. We currently do not have enough data to estimate travel time between the test fishery and the tower. Cumulative escapement is 12,000.

**The current subsistence fishing period will be extended until 11:59 p.m. Friday June 20.**

The Ugashik District will remain closed to commercial fishing.

Fishermen in both districts should stand by at 12:00 noon on Friday June 20 for the next possible announcement.

This has been the Alaska Dept. of Fish & Game in King Salmon.
