**Togiak Herring  
Announcement 17**

This is the Alaska Department of Fish & Game in Dillingham with an announcement regarding the Togiak herring fishery.

The department projects the entire purse seine quota will have been harvested by noon today. Therefore, commercial fishing with purse seines will close as scheduled at 12:00 noon today, May 11. The gillnet fleet ceased fishing on Saturday; with no effort present there, the Togiak herring gillnet fishery will also close at 12:00 noon today.

Processors are reminded that final operations reports with fish tickets are due to the Fish and Game office in Dillingham by May 26. We want to thank everyone for their help this year and wish you safe travels.

This has been the Alaska Department of Fish and Game in Dillingham.
