**BERING SEA TANNER CRAB
SEASON OPENS OCTOBER 15
TOTAL ALLOWABLE CATCH ANNOUNCED**

Alaska Department of Fish and Game (ADF&G) and National Marine Fisheries Service (NMFS) have completed analysis of 2015 NMFS trawl survey results for Bering Sea Tanner crab. Based on area-swept estimates, mature female biomass for Bering Sea District Tanner crab is above the minimum threshold for fishery opening. The 2015/16 Bering Sea Tanner crab fisheries will open October 15, 2015 and close March 31, 2016.

Bering Sea District Tanner crab is managed east and west of 166° W long, with a separate total allowable catch (TAC) for each area. Mature male biomass (MMB) west of 166° W long is above threshold for fishery opening and is above the long-term average. MMB east of 166° W long is also above threshold for fishery opening but is below the long-term average. Bering Sea District Tanner crab TACs are apportioned as follows:

	East of 166° W long (EBT)	West of 166° W long (WBT)
Individual Fishing Quota (IFQ)	10,144,800 pounds	7,556,400 pounds
Community Development Quota (CDQ)	1,127,200 pounds	839,600 pounds
Total	11,272,000 pounds	8,396,000 pounds

The EBT directed fishery will open in Bering Sea District waters from 163° to 166° W long. Tanner crab IFQ or CDQ may also be retained up to five percent of the weight of red king crab onboard a vessel registered for the Bristol Bay red king crab fishery in waters east of 166° W long.

The WBT directed fishery will open in Bering Sea District waters west of 166° W long. Tanner crab IFQ or CDQ may also be retained up to five percent of the weight of snow crab onboard a vessel registered for the Bering Sea snow crab fishery. In the directed WBT fishery, snow crab IFQ or CDQ may be retained up to five percent of the weight of Tanner crab onboard a vessel registered for the WBT fishery. Fishermen may not concurrently register for WBT and EBT fisheries.

To protect the Pribilof blue king crab stock, the WBT fishery will not open in waters enclosed by connecting the following coordinates: 56°30' N, 170° W; 57° N, 171° W; 58° N, 171° W; 58° N, 168° W; 57° N, 168° W; 56°30' N, 169° W; 56°30' N, 170° W. The associated closed ADF&G statistical areas are: 685730, 695730, 705730, 705701, 705703, 695701, 695700, 685700, 695631, 695632, the northeast half of 705630, and the northwest half of 685630. A map of the closed area will be provided at the time of registration.

A valid United States Coast Guard (USCG) Commercial Fisheries Vessel Safety Decal is required before vessel registration. Vessels must also have an activated vessel monitoring system (VMS) approved by NMFS. The operator of a vessel participating in IFQ or CDQ crab fisheries must notify the USCG at least 24 hours prior to departing port when carrying crab pot gear. USCG can be contacted at: (907) 581-3466 or (907) 359-1575 (after hours).

At the time of vessel registration, all pots onboard the vessel and in wet storage must be in compliance with Bering Sea District Tanner crab fishing regulations. There is no crab pot limit or buoy tag requirement for Bering Sea Tanner crab fisheries. Vessel operators may register up to 20 groundfish pots.

A vessel operator may transport crab pot gear to the fishing grounds for another vessel operator; however, the registered vessel operator of the crab pot gear has seven days to be active in the registration area where the gear is deployed. Vessel operators may register gear operation cooperatives, and a vessel operator may make a one-time transfer of all pot gear to another vessel operator at the completion of fishing operations.

Preseason gear inspections will be available beginning October 9, 2015 in Dutch Harbor and October 10 in King Cove and Akutan. Vessel registration will begin 12:00 noon October 14, 2015. An individual holding a current Commercial Fisheries Entry Commission (CFEC) Bering Sea Tanner crab interim use permit card (T91Q or T09Q) must be present during registration. Vessel operators may participate concurrently in IFQ and CDQ fisheries, but a separate registration and CFEC permit card are required for each fishery.

Vessel operators must notify ADF&G within 72 hours of completing fishing operations in a registration area or when departing the registration area with gear in long-term storage or transferred to another vessel. Unbaited gear with doors open may be stored for up to 14 days outside of designated storage areas after fishing is completed. Pots must be removed from the water or placed in long-term storage if left unattended in a registration area for more than 14 days. A vessel operator's registration will be invalidated after 14 days of inactivity in a registration area.

For questions regarding issuance of quota share and IFQ/IPQ, contact NOAA Fisheries RAM Division at 1-800-304-4846 (option #2). For questions regarding federal Crab Rationalization Program regulations, contact NOAA Fisheries Sustainable Fisheries Division at (907) 586-7228 or the NOAA Office of Law Enforcement in Kodiak at (907) 486-3298 or Dutch Harbor at (907) 581-2061.

For further information contact ADF&G Dutch Harbor at (907) 581-1239, or ADF&G Kodiak at (907) 486-1840.
