KODIAK COMMERCIAL SALMON FISHERY UPDATE # 01

The Alaska Department of Fish and Game Westward Region research staff would like to notify all Alitak District fishermen of a public meeting to discuss ongoing salmon research, current issues, and potential research plans in Olga Bay watersheds.

The meeting will take place at Trap Point on June 23 at 1:00 p.m. To promote attendance by all interested individuals, we will not hold the meeting if there is a fishery opening in the district on that day. ADF&G staff will confirm that they have departed the City of Kodiak on the morning of June 23 via the Dog Salmon weir crew's morning area escapement update on VHF channel 79.

For further information or questions, please contact:
