### Prince William Sound Salmon Fishery News Release #50

**COPPER RIVER DISTRICT:** Copper River District will open at 7:00 am on Monday, August 22 for a 24-hour commercial fishing period.

An aerial survey of Copper River District coho salmon index systems is anticipated later this week, weather dependent. A preliminary harvest estimate from the 24-hour period that started on Monday, August 15 was 760 sockeye and 19,000 coho salmon with 206 deliveries reported.

During the commercial fishing season, subsistence harvest may occur in the Copper River District concurrent with commercial periods until the Copper River District is closed at the end of the season. Subsistence users may obtain subsistence permits during regular business hours. The Cordova ADF&G office is open to the public Monday - Friday, 8:00 am - 12:00 pm and 1:00 pm - 5:00 pm. **Subsistence permits are not available outside of regular office hours.**

**BERING RIVER DISTRICT:** Bering River District will open at 7:00 am, Monday, August 22 for a 24-hour commercial fishing period.

**ESHAMY DISTRICT:** Eshamy District, excluding waters south of Loomis Creek (60° 29.44'N., 147° 58.42'W.), will open to commercial gillnet harvest for a 24-hour period starting at 8:00 am on Thursday, August 18. **The AGZ will open to DRIFT GILLNET permit holders only during this fishing period.** Preliminary Eshamy video weir count through August 10 is 4,150 sockeye salmon versus an anticipated cumulative of 5,500 to 11,900 for this date. A preliminary harvest estimate from the 24-hour period that started on Monday, August 15 was 3,600 pink, 300 sockeye, and 70 coho salmon with 12 deliveries reported.

**SEINE FISHERIES:** This announcement provides time and area specifics for commercial purse seine fishing opportunity in PWS on Thursday, August 18.

**ADF&G is providing a shorter duration commercial fishing period within the Southwestern and Montague districts to target fish holding within bay and shoreline areas.**

PWSAC recommends the AFK, CCH, and WNH SHAs, THAs, and corresponding hatchery subdistricts remain closed until they can reassess their broodstock status. PWSAC has collected approximately 96% of the pink salmon cost recovery goal through August 16.

VFDA has collected 157 million eggs (63%) of a 250 million egg take goal through August 16. Egg take progress has been slow because of tides and recent rain that limit fish entry into the hatchery raceways.

**EASTERN DISTRICT:** Waters of the Eastern District, south of a line from Entrance Point to Potato Point, will be open to commercial purse seine fishing for a 12-hour period, from 8:00 am until 8:00 pm, on Thursday, August 18.

**All waters within Port Fidalgo north of the latitude of 60°51.00' N will be CLOSED to commercial fishing during this period.**

**SOUTHEASTERN DISTRICT:** Waters of the Southeastern District will open to commercial purse seine fishing for a 12-hour period, from 8:00 am until 8:00 pm, on Thursday, August 18.

**COGHILL DISTRICT:** Waters of the Coghill District, **excluding Esther Subdistrict, Granite Bay Subdistrict, and WNH SHA and THA**, will open to commercial drift gillnet and purse seine fishing for a 12-hour period, from 8:00 am until 8:00 pm, on Thursday, August 18.

**NORTHWESTERN DISTRICT:** Waters of the Northwestern District will open to commercial purse seine fishing for a 12-hour fishing period, from 8:00 am until 8:00 pm, on Thursday, August 18.

**SOUTHWESTERN DISTRICT:** Waters of the Southwestern District, **excluding Elrington Subdistrict, San Juan Subdistrict, and AFK THA and SHA**, will open to commercial purse seine fishing for a 6-hour fishing period, from 8:00 am until 2:00 pm, on Thursday, August 18. **Waters north of the latitude of Squire Point and west of the longitude of Herring Point will be CLOSED to commercial fishing during this period.**

**MONTAGUE DISTRICT:** Waters of the Montague District will open to commercial purse seine fishing for a 6-hour fishing period, from 8:00 am until 2:00 pm, on Thursday, August 18.

**Permit holders are advised that unscheduled announcements based on current escapement data may occur at any time inseason either establishing an additional period or extending an open period.**

**The next scheduled fisheries announcement is anticipated to be at 2:00 pm Saturday, August 20.**

Announcement recordings are available for **gillnet fisheries at 907-424-7535 and seine fisheries at 907-424-7345**. In addition, announcement recordings are available in Anchorage at 267-2843. Additionally, announcements, inseason harvest data, and escapement data are available at the following web addresses:  
<http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareacopperriver.main> (Copper River homepage) or  
<http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareapws.main> (Prince William Sound homepage).

Unless otherwise specified, all openings are clock openings based on Alaska Daylight Time, which is based on Coordinated Universal Time and may be obtained by calling 303-499-7111.

The department encourages commercial permit holders to renew their licenses early and to check their CFEC vessel registration stickers to make sure they are current.

The department also encourages permit holders to report observed violations to Wildlife Safeguard at 800-478-3377. Reports are anonymous and cash rewards may be paid for successful prosecution of violations.

PWS commercial fishers are reminded that area fisheries often necessitate fishing in close proximity to marine mammals. Under the Marine Mammals Protection Act (MMPA), the PWS drift gillnet fishery is classified as a Category II fishery. Participants in Category I and II fisheries must be registered in the Marine Mammal Avoidance Program (MMAP) to be authorized for lawful incidental, but not intentional, marine mammal takes during fishing. However, this authorization explicitly does **not** exempt holders of commercial fishing permits from the MMPA prohibition on takes of marine mammals listed as endangered or threatened under the Endangered Species Act. As a participant in the PWS drift gillnet fishery, you are automatically registered in the Marine Mammal Authorization Program (MMAP) by the National Marine Fisheries Service (NMFS). As a participant in a Category II fishery, you must:

- Maintain an MMAP Authorization Certificate, or a photocopy, on board the vessel while engaging in any of the fisheries identified on the reverse side of the certificate. For non-vessel or set net fisheries, the enclosed Certificate, or a photocopy, must be in the possession of the permit holder during fishing operations. This Certificate, in combination with a current, valid state or Federal fishing permit, will serve as your authorization to incidentally take non-endangered or non-threatened marine mammals in the course of commercial fishing operations.
- Report all injuries and mortalities of marine mammals within 48 hours of returning from the trip during which these takes occurred using the MMAP Mortality/Injury Reporting Form (visit [http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap\\_reporting\\_form.pdf](http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap_reporting_form.pdf) for a copy).
- If so requested, take an observer aboard your vessel.

Purse seine and set gillnet gear are classified as a Category III fisheries under the MMPA. Category III fishery participants are automatically exempted from the incidental take prohibition in the MMPA. Therefore, you do not need to maintain the MMAP certificate aboard your vessel, but must report any incidental takes of marine mammals within 48 hours of the incident or your return to port. Such reports must be made on the Marine Mammals Authorization Program Mortality/Injury Reporting Form.

Because some marine mammals are also listed under the Endangered Species Act, incidental takes are also regulated under that act and are not authorized. **All** MMPA category fisheries are liable for incidentally taking ESA listed species.

Please reference [http://www.nmfs.noaa.gov/pr/pdfs/esa\\_factsheet.pdf](http://www.nmfs.noaa.gov/pr/pdfs/esa_factsheet.pdf) for a list of marine mammals currently listed under the ESA (you should periodically check with the National Marine Fisheries Service for any changes in listed species).

Under the ESA, "take" means to "harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct." (16U.S.C. 1532(19)); and "harass" means an "intentional or negligent act or omission which creates the likelihood of injury to the wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering." (50 C.F.R. 17.3).

To reduce the possibility of incidentally taking an ESA listed species and its associated liability ADF&G recommends that:

- Fishermen participating in area fisheries remain vigilant in monitoring gear when marine mammals may be present.
- Fishermen use avoidance measures (e.g., not fishing or relocating fishing activities when marine mammals are present or likely to be present) to minimize interactions with marine mammals.
- Avoid fishing in areas where marine mammals are likely to be present at night or when visibility or weather conditions make it difficult to spot marine mammals.

For further questions concerning marine mammal regulations call NMFS at 907-271-5006.
