2018 Yukon River Salmon Fishery News Release # 9 Subdistrict 4-A Subsistence Fishing Schedule Districts Affected: Upper Yukon Area

This news release puts Subdistrict 4-A on a reduced subsistence salmon fishing schedule. These actions are intended to limit the harvest on early groups of Chinook salmon while more information about the timing and strength of the run is collected. During these openings, fishermen may use set gillnets, drift gillnets, and fishwheels.

Subsistence Management Actions

Subdistrict 4-A (including the communities of Anvik, Grayling, Kaltag, Nulato, and Koyukuk):

Subsistence fishing is currently open 24 hours a day with 7.5 inch or smaller mesh gillnets and fish wheels. By regulation, drift gillnets may be used for salmon beginning June 10 during open subsistence salmon fishing periods.

Fishing will close 6 p.m. Thursday, June 14. Subsistence fishing will reopen with 7.5-inch or smaller mesh gillnets on a reduced regulatory schedule consisting of two 24-hour periods per week from:

- **6 p.m. Sundays to 6 p.m. Mondays**
- **6 p.m. Wednesdays to 6 p.m. Thursdays**

Subsistence salmon fishing is closed between the 24-hour fishing periods.

Koyukuk River:

Subsistence fishing is open 24 hours a day, seven days per week with 7.5-inch or smaller mesh gillnets and fish wheels.
