It is extremely important to keep fish caught in different fishery areas separated so that accurate dockside sampling can occur by department personnel. If more than one area is fished, each troller and tender is required to keep and report these catches separately on **separate fish tickets** [5 AAC 29.090(k)]. The fishery name and the fishery area number must be reported on all fish tickets.

ICY STRAIT/KEKU STRAIT TROLL LOGBOOK PROGRAM

The department is soliciting participation in a troll logbook program that will be conducted during the 2018 spring troll fisheries in the Homeshore, Point Couverden, Northern Chatham Strait, and Keku Strait areas. This program is being implemented to help estimate encounter rates of juvenile Chinook salmon in the directed troll chum fisheries in Icy Strait and Keku Strait. Participants are asked to document all salmon caught in any of these spring troll areas. Port sampling staff will be available for logbook collection and distribution in Sitka, Petersburg, Wrangell, Ketchikan, and Juneau. Logbook participants will be compensated \$100 for three days of catch information. Trollers interested in participating may contact program coordinators Rhea Ehresmann (747-6688) or Anne Reynolds Manney (465-2444).

The Emergency Orders corresponding with this announcement are, 1S0218, 1S1418.
