**2018 Yukon River Fall Salmon Fishery News Release # 2  
Coastal District and Districts 1-3 Subsistence Fishing Schedule  
Districts Affected: Lower Yukon Area**

The 2018 fall chum salmon preseason run projection, based on the summer chum to fall chum salmon relationship, is for a run size of 700,000 to 900,000 fish. This level of abundance is anticipated to be sufficient to meet escapement and subsistence needs and provide a surplus for commercial and personal use purposes.

**Consistent with transitioning to fall season management, the following management actions will occur in the Lower Yukon Area districts:**

**Coastal District** (Naskonat Peninsula to 1 mile south of Black River)

Effective 12:00 a.m. Monday, July 16, the Coastal District will transition to fall season management. Subsistence fishing will remain open 24 hours a day, 7 days per week with 7.5-inch or smaller mesh gillnets.

**District 1** (1 mile south of Black River to Point Romanof)

Subsistence fishing is currently open during the summer season for 9 hours each day from 6 a.m. until 3 p.m. with 7.5-inch or smaller mesh gillnets.

**Effective 3 p.m. Sunday, July 15**, subsistence fishing will be open for the fall season for 24 hours a day, 7 days per week except for 12 hours before, during, and 12 hours after each commercial fishing period. Subsistence fishermen may use 7.5-inch or smaller mesh gillnets.

## **District 2**

Subsistence fishing will open as previously announced for two more summer season periods with 7.5-inch or smaller mesh gillnets from:

- **2 p.m. Thursday, July 12 to 8 a.m. Friday, July 13**
- **2 p.m. Monday, July 16 to 8 a.m. Tuesday, July 17**

**Effective 3:00 a.m. Wednesday, July 18**, subsistence fishing in District 2 will be open for the fall season for 24 hours a day, 7 days per week except for 12 hours before, during, and 12 hours after each commercial fishing period. Subsistence fishermen may use 7.5-inch or smaller mesh gillnets.

## **District 3**

Subsistence fishing is open for the summer season on a schedule of two 36-hour periods per week with 7.5-inch or smaller mesh gillnets:

- 8 p.m. Wednesdays to 8 a.m. Fridays**
- 8 p.m. Sunday to 8 a.m. Tuesdays**

**Effective 8:00 p.m. Wednesday, July 18**, subsistence fishing in District 3 will be open for the fall season 24 hours a day, 7 days per week. Subsistence fishermen may use 7.5-inch or smaller mesh gillnets.

During subsistence salmon fishing closures, only gillnets with 4-inch or smaller mesh may be used to target non-salmon species.

News releases and fishery information will be shared on Facebook at:
