**Registration Area J Red Sea Cucumber
Guideline Harvest Levels for the 2018/19 Season**

The 2018/19 red sea cucumber season opens by regulation on September 15, 2018 in the Chignik District and October 1, 2018 in all other districts of Registration Area J. The Alaska Department of Fish and Game (ADF&G) will open weekly fishing periods by emergency order which will be announced in subsequent news releases.

Prior to any commercial diving, each diver is required to obtain a current sea cucumber dive gear interim-use permit card from the Commercial Fisheries Entry Commission (CFEC) and a valid diver registration or commissioner permit from the Alaska Department of Fish and Game (ADF&G). Participation in the Kodiak District fishery requires a different CFEC interim-use permit card (Q11K) than is required in other Registration Area J districts (Q11B). All divers are required to submit completed logbooks to ADF&G after each fishing period. Registration forms, commissioner permits, and logbooks are available from ADF&G offices in Kodiak and Dutch Harbor.

Red sea cucumber guideline harvest levels (GHLs) for the Kodiak, Chignik, South Peninsula, Bering Sea, Eastern Aleutian, and Western Aleutian districts are based on historical harvest and fishery performance data. ADF&G will assess distribution of effort and fishery performance throughout the 2018/19 season. Poor fishery performance may result in district or section closures prior to achieving the full GHL.

Registration Area J red sea cucumber GHLS for the 2018/19 season are expressed as the weight of eviscerated product (below).
