### Prince William Sound Salmon Fishery News Release #54

**COPPER RIVER DISTRICT:** The Copper River District will open at 7:00 am on Thursday, August 23 for a 24-hour commercial fishing period. The standard management strategy for coho salmon is one or two 24-hour periods per week depending on escapement and harvest levels. For the week ending August 18, the Copper River Delta survey count was 3,115 coho salmon versus a projected range of 5,846–12,239. Preliminary harvest estimates from the 24-hour period that began on Monday, August 20 are 57,800 coho and 370 sockeye salmon with 303 deliveries reported.

During the commercial fishing season, subsistence harvest may occur in the Copper River District concurrent in time and area with commercial fishing periods until the Copper River District is closed at the end of the season. Additionally, waters of the Copper River District will open to subsistence fishing from 6:00 am to 10:00 pm on all Saturdays between June 16 and October 31.

**BERING RIVER DISTRICT:** The Bering River District will open at 7:00 am on Thursday, August 23 for a 24-hour commercial fishing period. The standard management strategy for coho salmon is one or two 24-hour periods per week depending on escapement and harvest levels. For the week ending August 18, the Bering River Delta survey count was 3,610 coho salmon versus a projected range of 2,533–6,431. Preliminary harvest estimates from the 24-hour period that began on Monday, August 20 are 5,200 coho salmon with 14 deliveries reported.

**ESHAMY DISTRICT:** The Eshamy District will open to commercial gillnet harvest for a 12-hour period starting at 8:00 am on Thursday, August 23. The AGZ will open to SET GILLNET permit holders only during this period. Preliminary harvest estimates from the 24-hour period that began on Monday, August 20 are 4,000 pink, 550 coho, and 260 sockeye salmon with 13 deliveries reported.

**SEINE FISHERIES:** This announcement will detail PWS purse seine fishing periods commencing on Thursday, August 23; Friday, August 24; and, Saturday, August 25.

**All regulatory closed waters and all anadromous stream closures are in effect unless otherwise stated. Additionally, fishermen are prohibited from driving or attempting to drive salmon from closed waters as stated in 5AAC 39.190.**

**EASTERN DISTRICT:** Waters of the Eastern District, **excluding waters of the Port Fidalgo Subdistrict**, will open to commercial purse seine fishing for 12-hour periods, from 8:00 am until 8:00 pm, on Thursday, August 23 and Friday, August 24. **Waters of Port Valdez north of a line from Entrance Point to Potato Point will be closed to commercial fishing during these periods.**

Waters of the Eastern District will open to commercial purse seine fishing for 12-hour periods, from 8:00 am until 8:00 pm, on Saturday, August 25. **Waters of Port Valdez north of a line from Entrance Point to Potato Point will be closed to commercial fishing during these periods.**

**NORTHERN DISTRICT:** Waters of the Northern District, **excluding waters of the Cannery Creek Subdistrict, CCH THA, and SHA**, will open to commercial purse seine fishing for 12-hour fishing periods, from 8:00 am until 8:00 pm, on Thursday, August 23; Friday, August 24; and, Saturday, August 25.

**COGHILL DISTRICT:** Waters of the Coghill District, **excluding waters of the WNH THA and SHA**, will open to **commercial drift gillnet and purse seine** fishing for a 12-hour period, from 8:00 am until 8:00 pm, on Thursday, August 23; Friday, August 24; and, Saturday, August 25.

The department encourages commercial permit holders to renew their licenses early and to check their CFEC vessel registration stickers to make sure they are current.

The department also encourages permit holders to report observed violations to Wildlife Safeguard at 800-478-3377. Reports are anonymous and cash rewards may be paid for successful prosecution of violations.

PWS commercial fishers are reminded that area fisheries often necessitate fishing in close proximity to marine mammals. Under the Marine Mammals Protection Act (MMPA), the PWS drift gillnet fishery is classified as a Category II fishery. Participants in Category I and II fisheries must be registered in the Marine Mammal Avoidance Program (MMAP) to be authorized for lawful incidental, but not intentional, marine mammal takes during fishing. However, this authorization explicitly does **not** exempt holders of commercial fishing permits from the MMPA prohibition on takes of marine mammals listed as endangered or threatened under the Endangered Species Act. As a participant in the PWS drift gillnet fishery, you are automatically registered in the Marine Mammal Authorization Program (MMAP) by the National Marine Fisheries Service (NMFS). As a participant in a Category II fishery, you must:

- Maintain an MMAP Authorization Certificate, or a photocopy, on board the vessel while engaging in any of the fisheries identified on the reverse side of the certificate. For non-vessel or set net fisheries, the enclosed Certificate, or a photocopy, must be in the possession of the permit holder during fishing operations. This Certificate, in combination with a current, valid state or Federal fishing permit, will serve as your authorization to incidentally take non-endangered or non-threatened marine mammals in the course of commercial fishing operations.
- Report all injuries and mortalities of marine mammals within 48 hours of returning from the trip during which these takes occurred using the MMAP Mortality/Injury Reporting Form (visit [http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap\\_reporting\\_form.pdf](http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap_reporting_form.pdf) for a copy).
- If so requested, take an observer aboard your vessel.

Purse seine and set gillnet gear are classified as a Category III fisheries under the MMPA. Category III fishery participants are automatically exempted from the incidental take prohibition in the MMPA. Therefore, you do not need to maintain the MMAP certificate aboard your vessel but must report any incidental takes of marine mammals within 48 hours of the incident or your return to port. Such reports must be made on the Marine Mammals Authorization Program Mortality/Injury Reporting Form.

Because some marine mammals are also listed under the Endangered Species Act, incidental takes are also regulated under that act and are not authorized. **All** MMPA category fisheries are liable for incidentally taking ESA listed species.

Please reference [http://www.nmfs.noaa.gov/pr/pdfs/esa\\_factsheet.pdf](http://www.nmfs.noaa.gov/pr/pdfs/esa_factsheet.pdf) for a list of marine mammals currently listed under the ESA (you should periodically check with the National Marine Fisheries Service for any changes in listed species).

Under the ESA, “take” means to “harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct.” (16U.S.C. 1532(19)); and “harass” means an “intentional or negligent act or omission which creates the likelihood of injury to the wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering.” (50 C.F.R. 17.3).

To reduce the possibility of incidentally taking an ESA listed species and its associated liability ADF&G recommends that:

- Fishermen participating in area fisheries remain vigilant in monitoring gear when marine mammals may be present.
- Fishermen use avoidance measures (e.g., not fishing or relocating fishing activities when marine mammals are present or likely to be present) to minimize interactions with marine mammals.
- Avoid fishing in areas where marine mammals are likely to be present at night or when visibility or weather conditions make it difficult to spot marine mammals.
