SOUTHEAST ALASKA GEODUCK CLAM FISHERY ANNOUNCEMENT

Ketchikan. . . The Alaska Department of Fish and Game announced today the following information regarding the Southeast Alaska commercial geoduck clam fishery.

There will be no geoduck fishery this week.

Cone Island North (Subdistricts 103-50-005, 104-40-005) was tested for paralytic shellfish poisoning (PSP) and not certified for live sale of geoducks this week. The next possible date for a live geoduck fishery in the Ketchikan Area is September 18 and is dependent on PSP sampling. The September 18 fishery will be announced by news release before that date.
