JUSTIFICATION:

Hunt managers set a harvest quota of 3 males or 1 female for the Clarence Kramer hunt zone of mountain goat hunt RG150 on Baranof Island. Quotas are based on the most recent aerial surveys. Baranof Island hunt zones were developed in 2017. To date, three male goats have been harvested in the Clarence Kramer hunt zone of RG150. The management objective for this zone has been met. Additional harvest could lead to reduced hunting opportunities in the future. Therefore, this zone is being closed by emergency order (EO) at 11:59 PM, Wednesday, October 19, 2022.
