ATTENTION ALL HUNTERS!

• All Drawing permit hunts listed in this supplement take place in 2020, unless designated as 2021.
• The online application period begins November 1 and ends December 16 at 5 p.m. (AKST).
• Drawing results will be announced by the third Friday of February.
• NEW! The application period previously held in May for Fall Kodiak brown bear hunts is now combined with the Nov/Dec application period. See pg. 2 for changes.
• Antlerless hunts must be authorized by advisory committees in order to be held. Application fees will not be refunded if the antlerless hunts are not authorized.
• All applications submitted are final and application fees will not be refunded.

Select your hunt numbers, locate your big game hunting license number and review your credit card information, then go online to: http://hunt.alaska.gov

Read This Section BEFORE Applying

The number of permits actually issued may be adjusted up or down depending on the outcome of the most recent population surveys. Many of these surveys are not completed until after the publication of this supplement. The number of permits may also be adjusted up or down from the number listed in this supplement for administrative reasons.

• Each hunt is assigned a unique hunt number. Use only hunt numbers listed in this supplement.
• Applicants may apply for up to six hunts for the same species on all individual and party applications combined, and may apply for the same hunt more than once. Exceptions listed below.
• For moose:
  • For Kukuyuk Controlled Use Area (KCUA), all permits that were issued for any KCUA moose permit last year are ineligible to receive a Drawing permit for any KCUA moose hunt this year.
  • Guided nonresident moose hunters may only submit one application for all KCUA moose hunts.
• Applicants for 21E moose draw hunts may only apply for DM387 OR DM389, but not both.
• For Kodiak brown bear:
  • Nonresidents hunting with a registered guide may only apply for one Kodiak brown bear hunt for the spring of 2020, and one hunt for the fall of 2020.
  • If you fail to report or have an Alaska big game hunting license prior to applying (except Alaska residents 17 years of age and younger), you will be required to submit an undersubscribed Drawing permit.
• A hunter must be 10 years of age or older by the starting date of the hunt to obtain a Painting permit. You must obtain or have applied for an Alaska big game hunting license prior to applying to those who received an undersubscribed Drawing permit.
• Nonresidents who will become residents by the starting date of the hunt may apply for resident hunts; however, they must purchase a nonresident big game hunting license in order to apply for those hunts.
• No person may receive more than one Drawing permit per species per regulatory year.
• Permits are not transferable.
• Hunt area maps are available online at http://hunt.alaska.gov

How to Apply

Apply early! Read the Drawing permit hunt application instructions carefully.

• You must apply online (VISA, MC, Discover, and American Express only. Cash and checks are not accepted). There is NO REFUND of application or license fees.
• In addition to the hunter’s name, address and under the immediate supervision of that adult. The adult permit holder must be a licensed hunter, 18 or older, and is responsible for ensuring all legal requirements are met.
• Youth Drawing permits are designated with a Y instead of a D. Only youth are eligible to apply. Basic Hunter Education is required, see page 3 for additional information.

Basic Hunter Education Requirements

• Requirements for hunters before hunting in Units 7, 13, 14, 15, and 20
If you were born after January 1, 1986 and are 18 years old or older, you must have successfully completed the NativeAlaska application period. You must have successfully completed the NativeAlaska application period.

-OR-

If you were born on or before January 1, 1986.

In addition to the units listed above, some hunts or hunt areas require Basic Hunter Education, regardless of the age of the applicant. For those hunts, permit winners must have successfully completed a Basic Hunter Education course prior to hunting.

Guide Information

Guide Requirements for Nonresidents

• Nonresidents who are citizens of the United States are required to be personally accompanied in the field by an Alaska-licensed guide or be accompanied in the field by a legally registered female under the age of 18. Nonresidents are also required to pay for the tag or license fee of the degree of kindred when hunting brown/grizzly bear, Dall sheep, or mountain goat.
• Nonresidents who are not citizens of the United States (nonresident aliens) are required to be personally accompanied in the field by an Alaska-licensed guide when hunting any big game species.
• Those intending to hunt with an Alaska-licensed guide should make certain there is an available guide that is registered to hunt in the area they plan to hunt. Having successfully obtained a permit does not guarantee the availability of a guide.
• All hunters, guided and unguided, are responsible for their own actions and should be knowledgeable about all hunting regulations.

Guide-Client Contracts required for nonresident hunts

All nonresident hunting big game species that require an Alaska-licensed guide must have a guide-client contract on file before application. These hunts are identified with the "handshade" symbol shown here.

To get started, select an Alaska-licensed registered or master guide who is currently required for all or any portion of the Guide Use Area (GUA) where you wish to hunt and for the year the permit is valid. You can find this information by contacting:

Residents and Nonresidents Huntington with Resident Relatives (DB200 Series): Application Period for All Hunts is November 1 - December 16

Guided Nonresidents (DB100 Series): Application Period for ALL HUNTS (Spring AND Fall) is November 1 - December 16

Resident applicants may apply for one nonresident permit and one alternate. Each application includes a guide registered to guide in the hunt area. To reserve one of these permits a hunter, guide, or sponsor must complete aDrawing application. If there are no alternates available for the hunt, cancelled permits will be issued on a first-come, first-served basis starting on February 26 for the Spring 2020 hunts, and up until the first day of the hunt. The cancelled permits will be issued past the first day of the hunt. To reserve one of these permits, a hunter or sponsor must provide the guide's unique verification code (obtained from the guide by Big Game Commercial Services Board) to ADFG in Kodiak.

Nonresident brown bear hunters who are citizens of the United States must be accompanied in the field by an Alaska-licensed guide registered to guide in the hunt area, or an Alaska resident relative 19 years of age or older, within the second-degree of kindred. See “Alaska Residents or Nonresidents Huntington with Resident Relatives” section below.

Nonresident brown bear hunters who are not citizens of the United States (nonresident aliens) must be accompanied in the field by an Alaska-licensed guide registered to guide in the hunt area. See “Residents and Nonresidents Hunting with Resident Relatives” section below.

The application period previously held in May for Fall hunts is now combined with the Nov/Dec application period. See the icons below for changes.

Kodiak Brown Bear

Hunt Maps available online at http://hunt.alaska.gov

Reporting Requirements

Successful Hunters — report in person to ADF&G in Kodiak within 2 days after leaving the hunt area and submit your completed hunt report. The bear skull (unfrozen and removed from the skin) and hide (unfrozen, with claws and evidence of sex intact and naturally attached) must be presented for sealing within 30 days of harvest and prior to leaving Game Management Unit 8.

Unsuccessful Hunters — report in person or by telephone to ADFG (815-3506) in Kodiak within 2 days after leaving the hunt area. Completed permit reports must be submitted in person, online, or by mail within 10 days after leaving the hunt area.

Guide Requirements

Nonresident brown bear hunters who are citizens of the United States must be accompanied in the field by a resident relative. A valid Alaska big game hunting license, Big Game Tag Record, and brownbear^

Hunt numbers on left side of this chart when applying. If applying for a permit in the second degree of kindred use hunt numbers on the right side.

Guides who are citizens of the United States must be accompanied by a resident relative. See “Residents and Nonresidents Hunting with Resident Relatives” section below.

In addition to the nonresident bear hunters on their lands. Prior to applying for a permit they must register in the location of the land owners. Land status maps and addresses of land owners are available online at: http://www.dnr.state.ak.us/mlw/planning/easmtatlas/kodiak/#MAPS-TXT.

Resident or nonresident aliens hunting with a resident relative must be accompanied in the field by a resident relative. This includes guides unique verification code, is not recognized as an Alaska-licensed guide registered to guide in the hunt area. See “Residents and Nonresidents Huntington with Resident Relatives” section below.
Permits are valid for hunts within two different license years, 2020 and 2021. Permit winners hunting in the fall 2020 season must
be a licensed resident hunter 21 years of age or older who is a parent, stepparent, or legal guardian of the child. The bag limit counts against
the discharge of firearms and bows within ½ mile of the Seward Hwy and trailheads. Chugach State Park prohib-
tion areas include: 1) South Fork Indian Creek, upper Ship Creek (upstream from Fort Richardson and excluding Tokle Creek drainage), Indian Creek, Bird Creek
(excluding Bird Creek Regional Park), and upper Eagle River (above Indian Creek drainage); Chugach State Park prohib-
its the discharge of firearms and bows within ½ mile of the Seward Hwy, Baranof Island South and west of a line which follows the crest of the island from Rock
Point (N 58° 45', W 136° 15'), to Beqa Island (N 57° 38', W 136° 10'), to Rodgers Point (N 57° 40', W 135° 45'), to the en-
trance of Gut Bay (N 56° 44', W 134° 38'), including the drainages into Gut Bay, Kruzof Island, and other adjacent islands. Nonresident hunters applying for DB088 may NOT use an Alaska-licensed guide.
• Guide Requirements: You can use that information as you see fit. However, if you do not harvest a bear must purchase a new license and a new locking-tag to continue hunting with their permit in 2021 season. If unsubscribed, these permits will be available at ADF&G in June. Information about these permits will be posted online at http://hunt.alaska.gov when available.
• Nonresident hunters applying for DB088 may NOT use an Alaska-licensed guide.

How does the random drawing work?
All permit applications are entered into a database and checked for potential problems such as correct hunt numbers, date of birth, hunting license
information, etc. A computer then randomly assigns a "draw number" to each hunt on each valid application. Party hunt applications receive one
draw number for each hunt; that is, both applicants on a party hunt application receive the same draw number for each hunt in the party application.

Permits are assigned to applicants with the lowest draw numbers, up to the number of permits allocated for that particular hunt. If five permits are to be awarded for a particular hunt, the five permits will be assigned to the five lowest draw numbers. Note this may differ slightly when it comes to party applications, where two party members share the same draw number. For example, if four of the five permits have already been assigned, and a party application has the next-
lowest draw number, the party application will be skipped. This is because only one permit remains available, while two permits would have to be assigned (one for each member of the party). In those situations, the one remaining permit will be assigned to the individual applicant with the next-lowest draw number.

After all permits have been tentatively assigned for a species, the list is checked to identify any individuals assigned two permits for the same species. In those situations, the individual is awarded one permit for the species, based upon how they ranked their choices on their permit application. The other permit is then awarded to the individual applicant with the next-lowest draw number. This process is repeated for all hunts for that species, until all possible permits are awarded.

In a few specific hunts alternate lists are required in order to maximize hunting opportunity. The alternate list is generated from all remaining applicants using the original randomly-assigned draw numbers. If the original applicant drawn does not notify the department of their intent to hunt by the date required, the next applicant(s) on the alternate list will be offered a permit until all permits have been awarded.

Youth Drawing Hunts
Youth Drawing hunts are limited to a child aged 10-17 at the time of the hunt and an accompanying adult. If the youth is a resident, the youth must be accompanied by any licensed resident hunter 21 years of age or older. If the youth is a nonresident, the accompanying adult must be a nonresident hunters hunting in the fall 2020 season must be accompanied in the field by an Alaska-licensed guide and are not eligible for Unit 4 Drawing bear hunts (DB067, DB068, and DB069).

Nonresident hunters applying for the remaining Drawing brown bear hunts (DB375, DB376, DB468, DB470, DB685, DB690 and DB987), excluding aliens, must be accompanied in the field by an Alaska-licensed guide or an Alaska resident 19 years of age or older within second-degree of kinship.
**Black Bear**

- Bears must be sealed within 30 days of the kill (see Alaska Hunting Regulations for salvage and sealing requirements). Permit hunt reports are due at the time of sealing.
- Bears must be sealed within 30 days of the kill (see Alaska Hunting Regulations for salvage and sealing requirements). Permit hunt reports are due at the time of sealing.
- Bears must be sealed within 30 days of the kill (see Alaska Hunting Regulations for salvage and sealing requirements). Permit hunt reports are due at the time of sealing.

Additional Requirements and Information:

- **Unit 1:** For DG364, access to this hunt area is limited due to private land ownership.
- **Unit 14:** For DG364, access to this hunt area is limited due to private land ownership.
### Moose

- Antlerless hunts must be authorized by advisory committees in order to be held.
- All sealing and in person or phone reporting must be done Monday through Friday (except holidays). Hours may vary by area office.
- All unsuccessful hunters and those who did not hunt must report within 15 days of close of season.
- In Unit 7, antlers are required to be sealed at ADF&G in Homer, Soldotna, or Anchorage within 10 days of take. Antlers may also be sealed at Wildlife Trooper offices in Units 7 and 15 by appointment only.
- Moose hunters in Unit 7 must complete the Moose Hunter Orientation online at [http://hunt.alaska.gov](http://hunt.alaska.gov) prior to hunting.

**Hunt Area:**
- portions of JBER. See box at left for proficiency testing requirements. Basic Hunter Education is required for these hunts.
- portions of Unit 14C within the drainages of Hunter Creek and Mirror Lake.
- most of this hunt area is private land.
- Access into Unit 15B is difficult. ATV's are not permitted on Kenai National Wildlife Refuge.
- Most of this area is privately owned and moose hunting is not allowed in Beach Lake Park. Therefore, hunter success is lower in than other areas.
- all hunters must attend a hunt orientation and pass proficiency test.
- McHugh Creek portion: all drainages flowing into McHugh Creek; however, firearms may not be discharged within ¼ mile of the Seward Highway. Special hunt conditions for both areas include Basic Hunter Education and mouzelkeader certification (if using a mouzelkeader), demonstrated shooting proficiency, orientation class (in October), hunting on weekdays only, daily check-in/out and moving unsalvaged parts at least 100 yards from trails or other designated park features. Shotgun hunters must use shotguns with front sights or scope only. Permit winners may be restricted to specific areas within the boundaries of this hunt.

Hunt Area: Unit 17A. Use of aircraft for the transportation of moose hunters, their moose hunting equipment, and/or parts of moose is prohibited within the following areas: two miles on either side of Togiak and upper Togiak Lakes, the Togiak, Izavieknik, Onvikunik, Kemuk, and Nayorurun Rivers. For the Nayorurun and Kemuk River, this restriction only applies to the lower five miles of these rivers. Hunters who have been transported by aircraft into Unit 17A may not hunt moose, or transport their moose hunting equipment and/or parts of moose into or through this area. This restriction does not apply to state maintained airports within this area.

Number of Permits:
- DM768 up to 80
- DM769 up to 25
- DM770 up to 125
- DM771 up to 50
- DM772 up to 200
- DM773 up to 125
- DM774 up to 125
- DM786 up to 75

Hunt Area:
- 20A: within the Wood River Controlled Use Area. See restrictions areas, page 12.
- East Central Tanana Flats and Mtns.: within the Wood River Controlled Use Area. See restrictions areas, page 12.
- Eastern Tanana Flats and Mtns.: within the Wood River Controlled Use Area. See restrictions areas, page 12.
- Wood River CUA East: within the Wood River Controlled Use Area. See restrictions areas, page 12.

Successful hunters are required to attach their red moose locking-tag to the antlers of the moose they harvest at the site of the kill. Additional Requirements and Information:
- DM768-DM774: only acceptable on the east side of the Wood River drainages. See restrictions areas, page 13.
- DM786: acceptable on the north side of Japan Hills to the Wood River; bounded on the east by the east bank of the Wood River, including the Wood River drainage upstream from and including the Snow Mountain Gulch Creek drainage; bounded on the south by the divide separating the Yanert River drainage from Wood River drainage; bounded on the west by the divide separating the Wood River drainage from the Moody Creek and Healy Creek drainages, the east bank of Sheep Creek from its headwaters downstream to Taltalikan Creek, and the east bank of Taltalikan Creek downstream from its intersection with Sheep Creek to the Rex Trail. Hunt area is entirely within the Wood River Controlled Use Area. See restrictions areas, page 13.

Hunt Area:
- 20A: bounded on the north by the north bank of the Tanana River, bounded on the east by the east bank of the Wood River, including the Wood River drainage upstream from and including the Snow Mountain Gulch Creek drainage; bounded on the south by the divide separating the Yanert River drainage from Wood River drainage; bounded on the west by the divide separating the Wood River drainage from the Moody Creek and Healy Creek drainages, the east bank of Sheep Creek from its headwaters downstream to Taltalikan Creek, and the east bank of Taltalikan Creek downstream from its intersection with Sheep Creek to the Rex Trail. Hunt area is entirely within the Wood River Controlled Use Area. See restrictions areas, page 13.

Hunt Area:

Apply online at http://hunt.alaska.gov

- Antlerless hunts must be authorized by advisory committees in order to be held.
- All unsuccessful hunters and those who did not hunt must report within 15 days of close of season.

Additional Requirements and Information

Hunt Area: that portion of Unit 20A bounded on the south by the south side of the Rex Trail, on the west by Tatlanika Creek, and on the north and east by the east bank of the Wood River.

Hunt Area: that portion of Unit 20A bounded on the south by the south side of the Rex Trail, on the west by the Tatlanika River, on the north by the north bank of the Tanana River, and on the east by Tatlanika Creek.

Hunt Area: that portion of Unit 20A bounded on the north and on the west by the Tanana River, on the east by the east bank of the Wood River, and on the south by a line at N 64° 29.183'.

Hunt Area: that portion of Unit 20A bounded on the north by a line at N 64° 29.183', on the west by the east bank of the Wood River, on the east by the north bank of the Tanana River, on the south by a line beginning at the mouth of the Little Delta River (at N 64° 17.033', W 146° 42.383') to the intersection of the Wood River’s east bank and the Rex Trail (at N 64° 14.00', W 147° 41.75'), on the north by the north bank of the Wood River, on the east by the Wood River, and on the south by the east bank of the Totatlanika River.

Hunt Area: that portion of Unit 20A bounded on the south by the south side of the Rex Trail; on the east by the east bank of the Totatlanika River and Dexter Creek, on the south by the divide separating the Totatlanika River/California Creek drainage from the Healy Creek and Lignite Creek drainages, and on the west by the western side of the Golden Valley Electric Association’s Northern Interline.

Hunt Area: that portion of Unit 20A within the Healy-Lignite Management Area (Archery only) west of the west side of the Golden Valley Electric Association’s Northern Interline.

Hunt Area: that portion of Unit 20A bounded by Healy Creek, upstream of Coal Creek (at N 63° 52.833', W 148° 40.90').

Hunt Area: that portion of Unit 20A bounded by Moody Creek.

Hunt Area: that portion of Unit 20A bounded on the north by the south side of the Rex Trail, on the west by the east bank of Tatlanika and Sheep Creeks, on the south by the divide separating the Tatlanika Creek drainage from the Healy Creek drainage, and on the west by Dexter Creek and the east bank of the Totatlanika River.

Hunt Area: that portion of Unit 20A bounded on the north by the south side of the Rex Trail; on the east by the east bank of the Wood River, on the south by the divide separating the Wood River drainage from the Yanert Creek drainage; and on the west by the divide separating the Wood River drainage from the Moody and Healy Creek drainages, and the west boundary of Sheep and Tatlanika Creeks.

Hunt Area: that portion of Unit 20A draining into the east bank of the Wood River upstream from and including the Snow Mountain Gulch drainage.

Hunt Area: that portion of Unit 20A bounded on the north by the north bank of the Tanana River between Delta Creek, the Little Delta River, and a line from the mouth of the Little Delta River (at N 64° 17.033', W 146° 42.383') to the intersection of the Rex Trail and Wood River’s west bank (at N 64° 14.00', W 147° 41.75'), on the west by the east bank of the Wood River, and on the east by the Alaska Range Divide, and on the west by the east bank of Delta Creek.

Hunt Area: that portion of Unit 20A bounded on the north by a line at N 64° 05.00', on the west by the boundary of the Wood River CUA, on the south by the north bank of the Yanert Creek CUA, and on the east by the west bank of Delta Creek.

Hunt Area: that portion of Unit 20A bounded on the north by the north bank of the Tanana River, on the east by the east bank of the Delta River, on the south by a line at N 64° 05.00', and on the west by the west bank of Delta Creek.

Hunt Area: that portion of Unit 20A bounded on the north by a line at N 64° 05.00', on the west by the west bank of the Delta River, on the south by Black Rapids Glacier, and on the west by the west bank of Delta Creek.

Antlerless, taking cows accompanied by calves is prohibited. Online, by mail, or in person to ADF&G in Fairbanks within 10 days of kill.

Hunt Area Map Available at http://hunt.alaska.gov
Wood River Controlled Use Area - Unit 20A bounded on the north by the south side of the Rex Trail beginning at its intersection with the east bank of the Totallanika River, then easterly along the Rex Trail to Gold King airstrip, then from Gold King airstrip along the trail's extension along the north side of Japan Hills to the Wood River; bounded on the east by the east bank of the Wood River, including the Wood River drainage upstream from and including the Snow Mountain Gulch Creek drainage; bounded on the south by the divide separating the Yanert River drainage from the drainages of the Healy Creek, Moody Creek, Montana Creek, and the Wood River; and bounded on the west by the east bank of the Nenana River from the divide separating the drainage of the Yanert River and Montana Creek north to Healy Creek, then easterly along the south bank of Healy Creek to the north fork of Healy Creek, then along the north fork of Healy Creek to its headwaters, then along a straight line to the south bank of Healy Creek to the Totallanika River, and then down the south bank of the Totallanika River to the Rex Trail. *The area is closed to the use of any motorized vehicle, except aircraft, for big game hunting including the transportation of any big game hunters, their hunting gear, and/or parts of big game, Aug. 1-Sept. 30; however, this does not prohibit motorized access via, or transportation of game on, the Parks Hwy or the transportation into the area of game meat that has been processed for human consumption.*

Yanert Controlled Use Area - Unit 20A bounded by the Nenana River upstream from and including the Yanert Fork drainage. *The area is closed to any motorized vehicle, except aircraft, for big game hunting, including transportation of big game hunters, their hunting gear, and/or parts of big game.* However, this does not prohibit motorized access via, or transportation of game on, the Parks Hwy or the transportation into the area of game meat that has been processed for human consumption. 

Healy-Lignite Management Area - Unit 20A, that portion includes the entire Lignite Creek drainage and north of a boundary beginning at the confluence of the Nenana River and Healy Creek, then easterly along the south bank of Healy Creek to its confluence with Coal Creek, then northeasterly to the headwaters of Sanderson Creek at Usibelli Peak. *Open to hunting by bow and arrow only.*

### Unit 20B Antlerless Moose

- All unsuccessful hunters and those who did not hunt must report within 15 days of close of season.

Hunt Maps available online at http://hunt.alaska.gov
20D, Delta Junction Management Area

**Residents Only**

- **DM790**: 20 Bull with spike-fork or 50-inch antlers or antlers with 4 or more brow tines on at least one side

**Nonresidents Only**

- **DM795**: 6

  - Bull with 50-inch antlers or antlers with 4 or more brow tines on at least one side
  - One moose every 4 regulatory years, taking calves or cows accompanied by calves is prohibited

Qualified Disabled Veterans and Qualified Disabled Active-Duty Military Only

- **DM795**: 6

  - Bull with spike-fork or 50-inch antlers or antlers with 4 or more brow tines on at least one side
  - Antlerless, taking calves or cows accompanied by calves is prohibited

20D, Bison Range Youth Hunt Controlled Use Area

- **YM792**: 10

  - Bull with spike-fork or 50-inch antlers or antlers with 4 or more brow tines on at least one side
  - Antlerless, taking calves or cows accompanied by calves is prohibited
  - Specimens are required, permit winners will be mailed information about specimen collection

- **YM795**: 16

  - Antlerless, taking calves or cows accompanied by calves is prohibited

Hunt Area: Bison Range Youth Hunt Controlled Use Area - the area consists of 2 field complexes within the Delta Junction Bison Range in Unit 20D as follows: (i) the Panoramic Field hunting area is located 1/4 mile south of the Alaska Hwy between milepost 1404.0 and 1456.7, and bounded by a line beginning at the northeast corner (N 63°53.309', W 145°14.741'), then northeast 1.5 miles to N 63°52.307', W 145°20.707', then southwest 2.4 miles to N 63°50.260', W 145°23.232', then south 1.5 miles to N 63°53.301', W 145°19.659', then southeast 2.0 miles to N 63°53.300', W 145°16.070', then northeast 1.0 mile to the beginning point; and (ii) the Grisette Field hunting area is located 1/4 mile south of the Alaska Hwy between milepost 1394.1 and 1396.8, and bounded by a line beginning at the northeast corner (N 63°48.864', W 144°57.766'), then northeast 2.0 miles to N 63°49.570', W 145°00.570', then southwest 1.1 miles to N 63°46.102', W 145°04.197', then southwest 2.3 miles to N 63°46.239', W 145°00.339', then northeast 1.5 miles to the beginning point.

The area is open to moose hunting by permit only and is closed to motorized vehicles for hunting. Youth permits and accompanying adults may hunt from Aug. 15 to Sep. 30, including the transportation of hunters, their hunting gear, and/or parts of game in the controlled use area.

20D, Southwest

Residents Only

- **DM791**: 16

  - Antlerless, taking calves or cows accompanied by calves is prohibited

Hunt Area: that portion of Unit 20D south of the north bank of the Tanana River and west of the west bank of the Johnson River excluding the Delta Junction Management Area.

Hunters may be restricted to either the east end or west end of the hunt area, with Sawmill Creek as the dividing line, based on most recent population data. Area will be assigned by order drawn and hunter preference.

Only one moose per lifetime allowed for this hunt.

Hunt Maps available online at http://hunt.alaska.gov

**Additional Requirements and Information**

- Antlerless hunts must be authorized by advisory committees in order to be held.
- All unsuccessful hunters and those who did not hunt must report within 15 days of close of season.
- All sealing and in person or phone reporting must be done Monday through Friday (except holidays). Hours may vary by area.

**Koyukuk Controlled Use Area**

The Koyukuk Controlled Use Area includes those portions of Unit 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk at N 64°52.68', W 157°43.10', then north-erly to the confluence of the Horrocks and Hated Rivers at N 65°25.42', W 157°44.89', then north-erly to the confluence of Billy Hawk Creek and the Huslia River at 65°56.66' N. lat., 156° 40.81' W. long., then easterly to the confluence of the Daksi River at 66°02.56' N. lat., 156° 12.71' W. long., then easterly to the confluence of McLane Creek and the Ingrada River at N 66°00.31', W 155°18.57', then easterly to the middle of the Hughes airstrip at N 66°02.56', W 154°15.69', then south to Little Indian River at N 65°47.10', W 154°16.59', then southwesterly to the crest of Hochandochita Mountain at N 65°31.87', W 154°52.18', then southwest to the mouth of Cottonwood Creek at N 65°13.00', W 156°06.43', then southwest to Bishop Rock (Yistletaw) at N 64° 49.35', W 157°21.73', then westerly along the north bank of the Yukon River (including Koyukuk Island) to the point of beginning.

The area is closed to the use of aircraft for hunting moose, including transportation of moose hunters, their hunting gear, or moose parts; however, this does not apply to transportation of moose hunters, their hunting gear or moose parts by aircraft between publicly owned airports in the controlled use area or the transportation into the area of game meat that has been processed for human consumption. All permit holders must sign in at the ADF&G check station or Huslia or Hughes to activate the hunt dates indicated on the permit, and must report in person at the ADF&G check station or Huslia or Hughes within 48 hours of the close of the season for which the permit was issued.
Apply online at http://hunt.alaska.gov

Units 21CD & 24CD Moose (Koyukuk)

- You may not apply for any 2020 Koyukuk Controlled Use Area (KCUA) moose Drawing hunts if you were drawn for any 2019 KCUA moose Drawing hunts.
- In the KCUA moose hunts, the front quarters, hindquarters, and rib meat must remain on the bone until the meat has been transported from the area or it has been processed for human consumption.
- A hunter who is issued a Drawing permit for the hunt areas in Unit 21B, 21C, 21D, 24C and 24D cannot receive registration permit RM832, RM834, or RM838 in the same regulatory year.
- All unsuccessful hunters and those who did not hunt must report within 15 days of close of season.

Nonresidents
Resident

• Nonresident sheep hunters must be accompanied in the field by an Alaska-licensed guide or an Alaskan resident relative within the second-degree of kindred as defined on page 1 of this supplement. All hunters, guided and unguided, are responsible for their actions, and should be knowledgeable regarding seasons, bag limits, and legal animals.

• Salvage, sealing, and reporting requirements: Horns must accompany meat from the field, may not be altered, and must remain naturally attached to the skull plate for sealing purposes.

• All horns taken under a Drawing permit must be sealed within 30 days or sooner if conditions require and must be accompanied by the permit report.

• All reporting and sealing must be done Monday through Friday (except holidays). Hours may vary by area office.

• All unsuccessful hunters and those who did not hunt must report within 15 days of close of season.

• Additional Requirements and Information

Sheep
Hunt Area: all Unit 14C hunt areas, except the hunt areas in DS123, and including the drainages of the East Fork of the Eklutna River and the West Fork of the Eklutna River upstream of the Eklutna River Closed Area.

It is your responsibility to know the open season and boundaries of the hunt areas for which you have won a permit.

Successful sheep hunters in Unit 14C must bring the horns (attached to the skull plate) for measuring and aging, and the permit hunt report to ADF&G in Anchorage, Palmer, Homer, or Soldotna within 10 days of killing the animal.

Emperor Goose
Hunt Area: Delta Controlled Use Area (DCUA) - those portions of Units 13B, 20A, and 21A beginning at the confluence of Miller Creek and the Delta River then west to Vertical Angle Bench Mark (VABM) Miller, then west to include all drainages of Augustine Creek and Black Rapids Glacier, then north and east to include all drainages of McGreen Creek to the confluence with the Delta River, then east in a straight line across the Delta River to the east bank of the Delta River, then north along the east bank to a point opposite the intersection of the Alaska and Richardson highways, then east in a straight line to the intersection of the Alaska and Richardson highways, then west along the Alaska Hwy to the west bank of the Johnson River, then south along the west bank of the Johnson River and Johnson Glacier to the head of the Canwell Glacier, then west along the north bank of the Canwell Glacier and Miller Creek to the Delta River. The area is closed to any motorized vehicle or pack animal for big game hunting, including the transportation of big game hunters, their hunting gear, or parts of big game within the DCUA. When the area quota has been reached, the area will be closed. All reporting and sealing must be done Monday through Friday (except holidays). Hours may vary by area office.

Successful hunters in Unit 14C must bring the horns (attached to the skull plate) for measuring and aging, and the permit hunt report to ADF&G in Anchorage, Palmer, Homer, or Soldotna within 10 days of killing the animal.

• Sheep hunters should review the migratory bird hunting regulations as well as duck stamp requirements.

• All unsuccessful hunters and those who did not hunt must report within 15 days of close of season.

• For additional information call (907) 267-2206 or visit http://www.adfg.alaska.gov/index.cfm?adfg=sheephunting.delta

• Requirements for a Successful Harvest

Units 8, 9, and 10
Nonresidents Only

Zone 1: Oct. 9 thru Jan. 2
One emperor goose
By phone (1-800-478-7469) or online within 24 hours

Zone 2: Oct. 9 thru Jan. 2
By phone (1-800-478-7469) or online within 72 hours

Zone 3: Oct. 15 thru Jan. 31
By phone (1-800-478-7469) or online within 24 hours

Zone 4: Sept. 1 - Dec. 16
By phone (1-800-478-7469) or online within 72 hours

Zone 1 Hunt Area: Unit 8, excluding the Knik River Closure Area. Road closure boundaries: all lands and water, including exposed tidelands, east of a line extending from Craig Point in the north to the west end of Safety Cove in the south and all lands and water south of a line extending from Termination Point along the north side of Cascade Lake extending to Anchor Lagoon Bay. Marine waters adjacent to the closest area are closed to harvest within 500 feet from the water’s edge. The offshore islands are open to harvest for example: Woody, Long, Gulf, and Puffin islands. Zone may be closed by Emergency Order when the area quota has been reached.

Zone 2 Hunt Area: Unit 10, excluding Unimak Island. Zone may be closed by Emergency Order when the area quota has been reached.

Zone 3 Hunt Area: Unit 9, excluding Unimak State Game Refuge. Zone may be closed by Emergency Order when the area quota has been reached.

Zone 4 Hunt Area: Unit 9 (excluding Unmak State Game Refuge in Unit 9D); and Zone 10. Zone may be closed by Emergency Order when the area quota has been reached.
Some Drawing hunt areas have weapons restrictions. The certification requirements for these areas vary depending on which weapon you are hunting with.

### Certificated Bowhunters Only:
You must have your bowhunter education certification (IBEP or equivalent) prior to applying for the Drawing hunt; this includes successful completion of the shooting proficiency test. MAY NOT use a crossbow unless the bolt is at least 16 inches in overall length, tipped with a broadhead, and at least 300 grains in total weight; the broadhead is fixed, replaceable or mechanical/retractable blade type and not barbed; no electronic devices are attached to the crossbow; except scopes or electronic sights that do not project light externally; the crossbow is at least 100 pounds peak draw weight; the bolt is at least 16 inches in overall length, tipped with a broadhead, and at least 300 grains in total weight; the broadhead is fixed, replaceable or mechanical/retractable blade type and not barbed; no electronic devices are attached to the crossbow; except scopes or electronic sights that do not project light externally.

### Certified Muzzleloader Hunters Only:
You must have your muzzleloader hunter education certification prior to applying for the Drawing hunt; this includes successful completion of the shooting proficiency test. For big game, muzzleloaders must be a shoulder-mounted long gun and at least .45 caliber or larger with a barrel that is either rifled or smooth bore and discharges a single projectile. For hunts restricted to muzzleloader only, muzzleloaders equipped with a scope or using smokeless powder are prohibited.

### Certified Shotgun Hunters Only:
To hunt big game with a shotgun in a weapons-restricted hunt, you must have successfully completed a Basic Hunter Education course prior to hunting; this includes successful completion of the shooting proficiency test.

### Certified Crossbow Bowhunting Only:
You must have your crossbow hunting education certification prior to applying for the Drawing hunt; this includes successful completion of the shooting proficiency test. MAY NOT use a crossbow unless the bolt is at least 16 inches in overall length, tipped with a broadhead, and at least 300 grains in total weight; the broadhead is fixed, replaceable or mechanical/retractable blade type and not barbed; no electronic devices are attached to the crossbow; except scopes or electronic sights that do not project light externally; the crossbow is at least 100 pounds peak draw weight; the bolt is at least 16 inches in overall length, tipped with a broadhead, and at least 300 grains in total weight; the broadhead is fixed, replaceable or mechanical/retractable blade type and not barbed; no electronic devices are attached to the crossbow; except scopes or electronic sights that do not project light externally.

If you intend to take one of these courses in Alaska, you should sign up early because classes fill quickly and are seldom offered during the summer. The Department currently offers the courses through volunteer instructors and online. The courses include a hunting proficiency test. Course dates are available at regional Fish and Game offices. For more information, please call Anchorage (907) 267-2187; Douglas (907) 465-4285; Fairbanks (907) 459-7375; Nome (907) 443-2271; Palmer (907) 746-6332; or Soldotna (907) 262-6368 or go online at www.alaska.gov/conservation/chapters/chapter-0046.html.

Below are tables listing results of the 2019 drawing. Apply for hunts that received fewer applications relative to the number of permits available. The Permits Available column may be different than what was advertised due to administrative reasons.

To improve your chance of drawing a permit:
1. Last year, approximately 321,126 applications were received for Drawing permit hunts. About 2.7% of the total applications were rejected. The most common errors were applying for the same hunt that was won last year, applicant was awarded a subsistence hunt that conflicted with draw hunt, and exceeding the allowed number of applications per species.
2. Apply for less popular hunts. The table below lists results of the 2019 drawing. Apply for hunts that received fewer applications relative to the number of permits available. The Permits Available column may be different than what was advertised due to administrative reasons.
