

# 2021-2022 Alaska Subsistence Permit Hunt Supplement

See pages 1-3 for Tier II and page 4 for Tier I Nelchina caribou and Unit 13 Community Subsistence Harvest information.

## Under state law, all Alaska residents are eligible for subsistence hunting of game populations where subsistence use occurs.

If the harvestable portion of a game population is not sufficient to provide a reasonable opportunity for all subsistence uses, the Board of Game shall distinguish among subsistence users, through limitations based on:

- The customary and direct dependence on the game population by the subsistence user for human consumption as a mainstay of livelihood; and
- The ability of the subsistence user to obtain food if subsistence use is restricted or eliminated.

## Permit Hunt Conditions

- Hunters must have in possession a valid hunting license, necessary permits, and if needed, big game locking-tags. Alaska residents 17 years of age and younger are not required to have a hunting license. Additional conditions may be listed under the description of each hunt.
- Properly completed permit hunt reports must be returned by the date specified on the permit, even if you did not hunt or were unsuccessful. If you did not return last year's Drawing, Registration (including Tier I Nelchina caribou), Targeted, or Tier II report, even if the postal service lost your report, **you will be ineligible for all Drawing, Registration (including Tier I Nelchina), Targeted, and Tier II, permits for the next regulatory year.**
- Permits are not transferable to another person, with the following exception:
  - Active duty military personnel deployed to a combat zone who are unable to use their Tier II permit may transfer their permit to a substitute hunter who is a resident of Alaska. Transfer forms are available at: [http://www.adfg.alaska.gov/index.cfm?adfg=huntlicense.military\\_permits](http://www.adfg.alaska.gov/index.cfm?adfg=huntlicense.military_permits). Additional information is available by contacting the Permit Hunt Administrator, ADF&G, Division of Wildlife Conservation, 1801 S Margaret Dr, Palmer, AK 99645. Phone: (907) 746-6398 or [dfg.dwc.huntpermit.reissue@alaska.gov](mailto:dfg.dwc.huntpermit.reissue@alaska.gov)

## Instructions for Applying for Tier II Permit Hunts

(Complete instructions on the Tier II application.)

- Only Alaska residents may apply for Tier II hunts; you must be a resident at the time of application.
- Applicants must be 10 years of age or older at the time of application.
- A hunter may apply for more than one hunt, but must complete a separate application for each hunt.
- You must list other members of your household who are also submitting Tier II application(s).
- No individual may hold more than one Tier II permit for a species.
- Only one Tier II permit may be issued to a household for moose or muskox. Up to three Tier II permits may be issued to a household for caribou.

### Questions 1-11:

- Driver's license or state ID number
- First name, middle initial, and last name
- Complete mailing address, city, state, and zip code
- Date of birth
- Phone number
- Community of principal residence

12: Total years of Alaska residency.

13: Enter the hunt number for which you are applying for. These are found in the first column on pages 2 and 3. Example: TM565

14: If you are applying for more than one Tier II hunt for a species, enter the choice number in the box indicating if this hunt is your first, second, etc. choice.

**Scored Questions 15-19:** See the explanation of scored questions in the Point Scoring section to the right. If a question is left blank, you will receive the minimum score for that question.

**Review and sign your application.** Any application which is illegible, has incorrect hunt numbers, or is missing required information (including signature) will not be considered. In addition, applications containing false information will be reported to Alaska Wildlife Troopers for investigation.

## Proxy Hunting in Tier II Hunts

- You may proxy hunt for caribou and moose in Tier II hunts.
- Antler destruction is required for both the hunter's animal and the beneficiary's animal, and must occur at the kill site unless uncut antlers must be submitted to ADF&G for measuring, in which case antler destruction will be completed after measuring by ADF&G.
- For all other proxy regulations, see the current Alaska Hunting Regulations.

## Basic Hunter Education Requirements

- Requirements for hunters *before* hunting in **Units 7, 13, 14, 15, and 20:**
  - If you were born after January 1, 1986 and are 18 years old or older,** you must have successfully completed a Basic Hunter Education course before you hunt in the units listed above.
  - If you are under 18 years of age,** you must have either successfully completed a Basic Hunter Education course before you hunt in the units listed above or be under the direct immediate supervision of a licensed hunter who is:
    - (a) 18 years of age or older and has successfully completed a Basic Hunter Education course,
- OR-
- (b) born on or before January 1, 1986.
- Hunters aged 10-17 who have successfully completed a Basic Hunter Education course, or hunters under the age of 10, are allowed to hunt on behalf of an adult permit holder under the direct and immediate supervision of that adult. The adult permit holder must be a licensed hunter, 18 or older, and is responsible for ensuring all legal requirements are met.

## Frequently Asked Questions

1. **Is it true that only Alaska residents can apply for Tier II subsistence permits?** Yes. You must be a resident at the time of application. A resident is a person who is physically present in Alaska with the intent to remain indefinitely and make a home here, and has maintained that person's domicile (home) in Alaska for the 12 consecutive months immediately preceding this application. Members of the military services and their dependents who have been stationed in the state for the preceding 12 consecutive months are also residents for Tier II purposes.
2. **How are Tier II permits awarded?** Each application is scored on 5 questions. Permits for a specific hunt are issued starting at the highest overall score and working downward until all permits are issued. If there are Tier II permits remaining, but a pool of applicants with the same score is too large to award all permits, a random drawing will be held to award the remaining permits.
3. **How many Tier II permits may an individual be awarded?** Only one Tier II permit per species may be awarded to an individual. Therefore, it is important that those applying for more than one hunt for the same species identify whether a hunt is their first, second, third, etc. choice for that species. If more individuals in a household are eligible for permits based on their score than can be allowed, the highest scoring individual(s) in the household will be awarded permit(s). When more than one household member applies for Tier II hunts, household applicants must be listed on each application.
4. **Can I have both a Drawing permit and a Tier II permit for the same species?** Yes. A person can be selected for a Drawing permit and also be awarded a Tier II permit for the same species. However an individual's bag limit does not increase. Upon harvesting an animal under one permit, the other permit automatically becomes invalid; however, you must still submit both hunt reports. The Drawing and Tier II permit systems are separate processes and your application for receiving a permit in one system does not affect your opportunity to apply for or receive a permit in the other.
5. **For Tier II, how does my score and my choice order affect if I get a permit or not?** Each hunt is scored independently. If you qualify for more than one permit for a given species, you will receive the permit for the hunt you indicated was your highest preference. If you did not identify a preference, you will receive a permit for the hunt in which you received the highest score. If you did not identify a preference and your scores are the same, a permit will be awarded by random draw process.
6. **If I qualify for a permit for one species, does that affect my opportunity to receive a permit for another species?** No. Each hunt is scored independently. Your potential to qualify for a permit is dependent upon your score in relation to the scores of other applicants for the same hunt.

## Appeals Process

Applicants may appeal a Tier II permit allocation decision or score to the Permit Hunt Administrator **within 20 days** of the public release of the list of names of those awarded Tier II permits. An appeal must be in writing or by telephone. If appeal is submitted in writing, it must be emailed, mailed, or hand delivered to the Permit Hunt Administrator (contact information below) within the 20-day appeal period. If appeal is provided by telephone (number below), it must also be made within the 20-day appeal period. Telephone appeals will be recorded. The department will provide a decision on the appeal by first class mail within 7 days of appeal receipt. A person aggrieved by a decision under this appeal system may appeal to the ADF&G Commissioner within 7 days of the mailing of a decision by the Permit Hunt Administrator. The Department of Fish and Game may change a Tier II permit allocation decision or score in case of an ADF&G scoring error or based on evidence that information on an application is false. Under 5 AAC 92.050, applications that are incomplete or contain false statements are void. Therefore, appeals asking to insert missing information or a signature, or asking to change answers to questions will be denied. Submit appeal to: Permit Hunt Administrator, ADF&G, Division of Wildlife Conservation, 1801 S Margaret Dr, Palmer, AK 99645, or call (907) 746-6398 to appeal over the phone.

## Apply Online by 5 p.m. (AKST) December 15!

The online application period begins November 1 and ends December 15 at 5 p.m. (AKST).

Results will be announced by the **third Friday of February**.

### Tier I & Community Subsistence Harvest Hunts: Apply online ONLY

Tier II: Apply online OR by mail to the address shown on the application form.

- If you apply by mail, it is your responsibility to make certain the envelope gets postmarked between November 1 and November 30 and received by December 15. Applications will not be accepted over the counter.
- Postmark: Some post offices routinely pouch mail and send it to a larger distribution center where it is postmarked 24-48 hours later! We suggest you hand-carry your envelope into the post office, ask that it be postmarked, and then look at the postmark to verify it. Also note that a postmark means a U.S. Postal Service postmark. Postage meter dates do not count. If applying by mail, MAIL TO:

## Point Scoring

Each Tier II application is scored based on the applicant's answers to questions 15-19. **Up to 140 points** are possible. Answers may be subject to verification.

15. **Up to 50 points** are awarded for the number of years you have hunted or eaten meat from the game population in the hunt area, or would have hunted this population, but did not because the hunt was cancelled or you were unsuccessful in obtaining a Drawing or Tier II permit for this population. One point is awarded for each year.
16. **Up to 10 points** are awarded for the number of years any one member of the household has hunted or eaten meat from this game population, or would have hunted this population, but did not because the hunt was cancelled or the household member was unsuccessful in obtaining a Drawing or Tier II permit for this population. One-fifth of a point is awarded for each year.
17. **Up to 25 points** are awarded for the number of days you spent hunting and/or fishing during the last regulatory year in the Tier II hunt area for which you are applying. The maximum number of points will be awarded to applicants who hunted and fished in the area for 70 days or more during the last regulatory year.
18. **Up to 25 points** are awarded based on the cost of food in the community where you purchased most of your store-bought food during the past year. Points are calculated by the department using the cost-of-food index for the community nearest the applicant's residence.
19. **Up to 30 points** are awarded based on the cost of automotive fuel in the community where you purchased most of your automotive fuel during the past year. Points are calculated by the department using the cost of automotive fuel for the community nearest the applicant's residence.

### Most Common Errors

The most common reasons applications were rejected: the applicant failed to report on a hunt the prior year, the applicant was under 10 years old at the time of application, or the application was missing required information.

# Tier II Permit Hunt Areas

**Restricted Area for hunt TM940:**  
**Dalton Highway Corridor Management Area (DHCMA).** Units 20, 24, 25, and 26 extending five miles from each side of the Dalton Highway, including the driveable surface of the Dalton Highway, from the Yukon River to the Arctic Ocean, and including the Prudhoe Bay Closed Area. The area within the Prudhoe Bay Closed Area is closed to the taking of big game; the remainder of the DHCMA is closed to hunting; however, **big game, small game, and fur animals may be taken in the area by bow and arrow only**; no motorized vehicle may be used to transport hunters, their gear, or parts of game within the DHCMA except aircraft, boats, and licensed highway vehicles on the following designated roads: 1) Dalton Highway; 2) Bettles Winter Trail during periods when BLM and the City of Bettles announce that the trail is open to winter travel; 3) Galbraith Lake road from the Dalton Highway to the BLM campground at Galbraith Lake, including the gravel pit access road when the gate is open; 4) Toolik Lake Road, excluding the driveway to the Toolik Lake Research Facility; 5) the Sagavanirktok River access road two miles north of Pump Station 2; 6) any constructed roadway or gravel pit within 1/4 mile of the Dalton Highway. However, a snowmachine may be used to transport hunters, their hunting gear, or parts of game across the management area from land outside the management area to access land on the other side of the management area. Any hunter traveling on the Dalton Highway must stop at any check station operated by the department within the DHCMA.

# Unit 13 Tier I Nelchina Caribou RC561 or RC562

- Tier I applications are accepted online only.
- Only Alaska residents may apply for Tier I hunts; you must be a resident at the time of application. All household members over the age of 10 must be listed on the application.
- Alaska residents that would like to hunt caribou in Unit 13 must choose to apply for only one of the following three types of hunts in Unit 13: Tier I (RC561 or RC562), Community Subsistence Harvest (CSH) caribou, or Drawing (DC485/YC495).
- There are two Tier I Registration hunts that hunters will have to choose from (RC561 or RC562). Hunters may only select **one** hunt to apply for.
- Members of a household that apply for a Unit 13 Tier I caribou permit or a CSH caribou permit are NOT eligible for ANY caribou Drawing hunts.**
- A household member is any person currently living with you in your principal home, excluding persons boarding or renting within your home or relatives living in separate homes.
- By applying for RC561 or RC562 you agree to all of the permit hunt conditions below:**
