About the Unit maps on the following pages:
This Game Management Units map of Alaska and the individual unit maps found throughout the following section on seasons and bag limits are included to help you determine the area in which a regulation applies. These maps are not intended to reflect exact unit or restricted area boundaries. For exact boundaries, please refer to the written description at the beginning of each unit, and consult a large-scale topographical map of the area. Not all roads, streams, and geographical features are illustrated because of the small scale. Hunters are advised that additional restrictions may be imposed by the land owner. See page 2 for phone numbers of ADF&G offices in the communities noted on these maps.
